To which is added receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the Fever and Ague.

Testimony of the Professor of Obstetrics in Penn. College, Philadelphia—"DR. HUNTER'S MEDICAL MANUAL,"—The author of this work unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of majoractic, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

From A Woolieard, M. D. of Penn. University, Philadelpha.—It gives me pleasure te add my testimony to the professional ability of the Author of the "Madical Manual," Numerous cares of Disease of the Genital Organs, some of them to long standing, have come under my notice, in which his skill has been manifest in restoring to perfec health, in some cases where the patient has been considered beyond medical and. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely concide themselves. A LFRED WU &DWARD, M. D.

'This is, without exception, the most comprehensive and intelligible work published on the class of disease of which it treats. Avoiding all technical terms, it addresses it is free from all objectionable matter, and no parent however fastidious, can object to placing it in the hands of the sona. The suther has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff and too little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years most successful practice."—Herald.

A Presbytérian elergyman in Ohio, writing of "Hunter's Medical Manual" says:—"Thousands upon thous ands of our youth, by evil example and influence of the passions, have been led into the habit of self pollu lou, without realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are raising families have been enfectled, if not broken down and they do notknow the cause or the cure. Anything that can be done so to endighten and influence the public unit as to cheek, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming greatering. Intemperance (or the use of intoxicating drinks) (hough it has elainthous ands upon thousands, is not a greater securage to the huands upon thousands, is not a greater scourge to the hu-man race.
