Horace Waters, Esq., 333 Brondway:

Dear Sir-Having examined your Piano Fortes from scientific and appropriate tests, I am ena-bled to form a satisfactory judgment of their merits, and it is with pleasure that I can speak of them as among the most celebrated and improved makes of the day. For power, brilliancy and richness of tone not suffer in comparison with those of any other manufacturer and those desirous of obtaining a really good Piano Forto-one that will prove has also largely increased his trade. "It will be seen that their stock comprises in struments of every grade of excellence, from the well known manufacturing establishments of Chickering & Son, Horace Waters, II. Worces ter, Nunns and Clark, and Bacon and Raven. It might well be supposed, that in so large a col-lection there would be some very fine instru-Fairbanks? Platform and Counter ments. But there is one which, for beauty of finish and richness and brilliancy of tone, equals, if it does not excel, anything of the kind we have over seen. It is from the establishment of Horace Waters. Being constructed of the beat and most thoroughly seasoned material, and upon improved principles, it is capable of resisting the action of every climate, and of standing a long time in tune. The keys are of pearl, and the recess for the finger-board is inlaid with pearl, the legs are most elaborately carved, and the whole instrument finished up in a style of great excellence and beauty. And yet its chief merit lies in the power brilliancy, and richness of its tone, and the clasticity of its toneli." "A THOUSAND DOLLAR PIANO."-We paid a visit the other day to the music store of Mr. Hornce Waters, 333 Broakway, on purpose to see ? specimen of his pianos, just manufactured at his up town establishment, of which we had heard a good deal of boasting. It may not be generally known that Mr. Waters has been established in this city but a little while, having set up in a small way some six years ago as agent for a Boston firm, and gone on by dint of industry and enterprise, till he has become one of the most prominent music publishers and dealers in the country. His musical instruments are well known for their superior quality, though they scarcely surpass in richness, volume of tone and delicacy of touch some instruments of more ob-

seure makers which we have seen; yet, even inmade anywhere in the country—though those of intoxicate or stupefy. eight presses, and his popular music, by the most eminent composers, is flying everywhere broad-east throughout the land We doubt if Oliver Diston of Boston, said to be the largest music dealer in the United States, turns off more sheets or better music, than Horace Waters. When Mr. W. commenced in this city, he was told by competitors that he had better "move on" as the pianos he offered were "no go;" but Horace being a pretty stubborn New Englander, concluded he wouldn't "move on" the way his rivals meant at least, until he tried the warket; and his conclusion now, after six years trial, during which he has been compelled to enlarge his premises several times, is that he will "move on," and keep moving on until he is able to sell 100 in. struments a week, instead of 30, heb make at least 26 of the 100 himself. After all, Mr. Water's success is mainly to be attributed to his liberal patronage of the press. There is scarcely a paper in the Union of any respectability, into which his advertisements have not found their if making and seling the superior article at the lowest prices will effect it, to move on so fur. that competition will lag in the rear It is worth uny one's wolle-buyer or not-to drop in at No. 333 Broadway, (his depot,) and see some of
