Review. The Editor of the Savannah Republican, Sa-

vannah, Ga., speaking of the Piano Fortes kept by Messrs. J. W. Morrell & Co. of that city, "It will be seen that their stock comprises instruments of every grade of excellence, from the well known manufacturing establishments of GUNNY BAGS AND BAGGING, Chickering & Son, Horace Waters, H. Worces, and various kinds of Thread and Twine, both ments. But there is one which, for beauty of finish and richness and brilliancy of tone, equals, if it does not excel, anything of the kind we have ever seen. It is from the establishment of Horace Waters. Being constructed of the best and most thoroughly seasoned material, and upon improved principles, it is eapable of resisting the action of every climate, and of standing a long time in tune. The keys are of pearl, and the recess for the finger-board is inlaid with pearl, the legs are most elaborately carved, and the whole instrument finished up in a style of

great excellence and beauty. And yet its chief merit lies in the power brilliancy, and richness of its tono, and the elasticity of its touch." "A Thousand Dollar Plano."-We paid a visit the other day to the music store of Mr. Hornce Waters, 333 Broakway, on purpose to see a specimen of his pianos, just manufactured at his np town establishment, of which we had heard a good deal of boasting. It may not be generally known that Mr. Waters has been established ly known that Mr. Waters has been established tresses, Washstands, Enameled Sets, Lounin this city but a little while, having set up in a ges, Chairs, Pillows, Counterpanes, &c., small way some six years ago as agent for a Boston firm, and gone on by dint of industry and enterprise, till he has become one of the most prominent music publishers and dealers in the country. His musical instruments are well known for their superior quality, though they careely surpass in richness, volume of tone and delicacy of touch some instruments of more obscure makers which we have seen; yet, even in these prime respects, Waters' best pianos and melodeons challenge comparison with the finest made anywhere in the country-though those of

Chickering, Gilbert and others are more famous. The particular piano we went to see, though s certainly a superb affair. The instrument in question, was one of his own mannfacture f a seven cetavo, carved rose-wood ase, initid with various colored mother-of-pearl with kers of the same material, and altogether shining and sounding as we might fancy of some sky-lark-ing seraph, in piano form. A more exquisite piece of workmanship we do not remember to have seen, and the elegance of its exterior

was the least of its merits. In tone, it was equal to a grand-action, and we doubt if Erard, or any other European celebrity, could produce a more superb voiced instrument. Mr. Waters has experimented in stringing his pianos-introducing a decided improvement-unfil he seems to have struck the fountain depths of sound, from of every variety of style, from the plain, neat and the most delicate to the most sonorous tones.--This particular piano, was valued at \$1,000, bu wood Cases, from \$150, to \$200, to those of the we examined and listened to several, at prices most elegant finish up to One Thousand Dollars. ranging down to quarter that sum, all equal in tone, as in all the instruments of his own manabove in the number, variety and celebrity of its | ufacture.
