You, who together have shared her love and care, know how well you have requited her. God forbid that, conscience should accuse any of you of ingratitude or murinuring on secount of the care she has been to you of late. I entreat you as a friend, as one who himself has entered the evening of life, that you may never say, in the presence of your families or of heaven, "Our mother has outlived her usefulness-she was a burden to us." Never, enever; a mother cannot live so long as that! No, when she can no longer labor for her children, nor vet care for herself, she can fall like a precious weight on their bosoms, and call forth by her helplessness all the noble, generous feelings of their natures.

"Adieu, then, poor toil-worn, mother; there are no more sleepless nights, no more days of pain for thee. Undying vigor and everlasting usefulness are part of the inheritance of the redeemed. Feeble as thon wort on earth, thou wilt be no burden on the bosom of Infinite Love, but there shalt thou find thy longed for rest, and receive glorious sympathy from Jesus and his ransomed fold."

The volcano is nearly exhausted .-The material for continued agitation no longer exists. And why? Because I hold it to be quite impossible that any considerable portion of our people can long continue to contest the elementary republican principles recognized in the territorial legislation of Congress.

"This is nothing more than the power possessed by the people of every free State since the world began. It is the foundation-the elementary principle of a Democratic Republic. Without a cheerful submission to the will of the majority no Democratic Government can exist.
