C. L. Ward, Esq.

Some of our Black Republican friends are endeavoring to make capital from the appointment of the gentleman whose name...

Mr. Ward resided in this county a good many years, is a very well known to all our people, and hence it is not necessary for us here to attempt a vindication, if indeed any were needed.

We have no alliances with Mr. Ward, political or personal, that call for a forced defence, if one were necessary from our pen.

Suppose, as is true, Mr. Ward has in the course of his life twice supported a Whig candidate, what of it? Why, we are told, with an artful and odious insinuation, by men who have been his lives rampant supporters...

But there is another class of men who are full of these mean insinuations against Mr. Ward. They are your Charles Reed's men who profess to be Democrats but who are now in the other camp...

Mr. Ward is Bradford county, originator of the abolition movement, and hence the Democratic papers of Connecticut claim the State for Buchanan and Breckinridge, by a majority of 6000, and offer to bet on it.

Mr. Ward is wealthy, and we don't know of a man in Pennsylvania whom we had rather see increase in wealth than he, though we are not aware that his wealth ever benefited a farthing.

Take the two, Mr. Wilmot and Mr. Ward in these relations. Let a poor and worthy man go to the former and say, "Mr. Wilmot, I am poor, I have a family dependent upon my toil, I have no home to shelter them, and I know not what to do. I can work, I am willing to work, but I can get no employment, and want states me in the face. Can you not give me a job?"

Then to all clear-headed and consistent men, we would say, contrast John C. Fremont with James Buchanan; a man who never speaks of great national questions without commanding the attention and respect of the world...

should meet Mr. Ward, and venture the same story to him. He would be told, "why, sir, I will put you in possession of land on which to make a home, and where you may raise bread for your starving family."

His frailties and his follies, too, as everybody has, and we do not claim for him an exemption therefrom. But we know very well that these mean and dark insinuations are calculated to have a worst effect upon the character of one of our most useful citizens...

What are they doing? The nomination of Fremont and Dayton by the Republicans, at Philadelphia, is one of the most sagacious ever offered to the intelligence of the American people.

Not that Fremont a much better chance for carrying New York. It will be recollected that the Fillmore State ticket beat the Republicans largely the last fall, and they will unquestionably give Fillmore, against Fremont, a much larger vote than they polled then.

Mr. Toombs of Georgia has introduced a Bill in the Senate for the admission of Kansas. He proposes to waive the question of population, and send three Commissioners to Kansas to take a Census and record the name of every natural settler.

The Free-soil and Abolition journals have been exhibiting with almost hysterical delirium, at the possibility that that distinguished gentleman the Hon. John A. Dix, formerly U. S. Senator from the State of New York, would give the weight of his commanding influence in favor of Black Republicanism.

John C. Fremont's father was a Frenchman, who, for some political offense, had his property confiscated and he fled to the United States, and escaped to this country.

Then to all clear-headed and consistent men, we would say, contrast John C. Fremont with James Buchanan; a man who never speaks of great national questions without commanding the attention and respect of the world.

of young aspirants for favor or notoriety, by fringing the changes of the demagogue, but with the deep earnestness of his nature, the strength of his energy, and the untiring resolution of his mind, he shows that he is a man of state...

Mr. Fillmore. Since the arrival of the ex-President from Europe, much of doubt referring to the next Presidency has been dispelled. His reception in New York, Albany, and other points at which he has stopped, shows plainly that he is not as has been represented, without strength in the Northern States...

because I sincerely believe that their election, of which there can be no rational doubt, will result in restoring peace to the country upon terms alike honorable and satisfactory to every portion of the confederacy.

all the other free States and loss Pennsylvania, he would be defeated. Nobody needs the reason why the idea of his carrying all the remaining free States, is preposterous.

ers, and have secured such priceless blessings to us. CLAIMING THE GERMAN. The following will show in what way our German fellow-citizens may be expected to support the Republican nominees. The Buffalo Democrat of Wednesday, 10th July, has published the following remarks:
