phases of this fusion which I find it difficult to solve. For instance, I cannot understand how these Abolitionists, whose sympathies have been so excited for the poor African and for his promotion on grounds of humanity and liberality, can so readily fraternize with a party whose avowed purpose is to proscribe white citizens, and degrade them to a position little above that of the blacks. I had supnosed that when the benignant feeling of enevolence got possession of the human heart, it would be broad enough to cover the white as well as the black race. And then. T again, how can the Republicans, with any show of sincerity, denounce the repeal of the Missouri line, because of their reverence for compacts and good faith, and then make common cause with a midnight dynasty, whose avowed purpose is to break compacts, to:disregard the Constitution and laws, and violate the faith of our fathers, for the purpose of subverting rights and privileges conferred upon the foreign born and Catholic citizens:-These are things which I do not understand. nor do I believe that when Solomon said "there is nothing new under the sun," he had any reference to a fusion like this.

But what is almost as incredible is that in the face of this startling picture, some of the Republican presses have the boldness to claim the German vote for Mr. Fremont and if it be true " that coming events cast their shadows before," we may look out for another addition of the farce of 1852, with the foreign born citizen on the stage. But the attempt cannot rise above a farce. Surely our naturalized citizens are not to be deceived again, as they most surely will be, if they rely noon any protection but that furnished by the Constitution and the laws and a Democratic ministration.
