Bulletins were issued two or three times a day, to inform the public of the state of his health and his pulse, and the impression was widely circulated that he was really in an alarming condition. The testimony of his physician exposes the fraud, and will be read by many who believe that Sumper was nearly killed, with extreme surprise. Q-What would you say of the nature of these wounds? A-They are nothing but flesh wounds? Q-What is your opinion in reference to

Q-State in this connection, whether there were any other persons with him-I mean any physician who advised that perhaps it might not be safe for him to go out?

The attempt of the black Republicans to make political capital out of this personal assault of Brooks upon Sumner, their indignation meetings and fuss generally, were the most rediculous proceedures that ever characterized our politics. Brooks attacked Sumner for personal reasons and not from any political motives, and the affair belongs exclusively to the judicial tribunals of the country. The pessionate appeals that have been made to arouse political and sectional prejudice for such a cause only shows how little confidence the Black Republicans have in their principles, and that they place their main reliance in passion and prejudice; and not in judgment and reason.

"Sir: I have great satisfaction in assuring your that myself and family have been very much befeited by your medicines. My wife was cured, two years since, of a sewers and dangerous cough, by your Chrane Pacronat, and since then has enjoyed perfect health. My children have giveral times been cured from attacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your Catharic Fills have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

The first does relieved me, and a few subsequent doses have entirely removed the disease.
