Maxirose, Thursday Aug. 7 1856. The Missouri Compromise.

The clamor lately raised over the Repeal of the Missouri Compromise, would lead the superficial thinker to suppose that that Act of Legislation has been most carefully considered, and invested with peculiar sanctity. Whereas, in fact, it was nothing more than a simple law passed by congress; having no more legal effect or unchangability than any other public law whatever. If a succeeding Congress were bound to pay special respect to the Missouri compromise, the obligation could arise only from the circumstances of Dog Powers. Clow's Grain Cradles. Retches condiment. As a law it could be repealed at pleasure; any unusual eminence or aucould arise only from the circumstances of at pleasure; any unusual eminence or autherity could attach to it only a political: measure, and the very name of the Act of tors, Provision Safes, &c. 1820 tells its whole history: It was a compromise. Now, as the ingenious Macauley cherves, "Politics are a succession of compromises." In a liberal representative Goverument, where all public laws are generally much discussed, and where public opinion is ir dependent and diversified, extreme measures rately prevail; the opinions of one or the for must needs yield somewhat; and the wise middle course is usually pursued. What is this but a compromise?

The application of Missouri for admission State with a Constitution tolerating shavery, agitated Congress and the country for three or four years. Opinion seemed ommously divided by geographical lines. But the very conflict of extreme views, as is always the case in this intelligent and demonand national moderation. In the progress of the Missouri Compromise, the acme of agitathe had been reached and passed; all the and was wearied and sickened of sectional methods of adjusting the difficulty; and after reseased efforts Henry Clay and others hit upon the idea of the geographical line of 36 The constitutionality of the impromise position was not much or thorargued, and many of the greatest leminds denied or doubted at the time; se for instance, the first Constitutional jurist American history, James Madison himself. but it so happened that the influence, efforts, and documence of Henry Clay and his coadjuiors provailed over opposition. One section toppoged and favored the compromise of 1820. A st was not, in fact, a bargain or adjustment between the North and the South as parties. memoring situation. It merely postponed a great constitutional question and serious .sus. The legislation of 1820 made work for a later generation.

Where then is the wondrous sacredness of this famous Missouri Compromise? It propeaded from no principle whatever. For what idea in the Constitution-what conformity to any natural progress is illustrated or obtificial is any Compromise founded upon it. rell. It requires tittle political foresight, therefore, to presage that this improvisioned expedient Clams, Oranges and Lemous, Pine Apples, &c., to be sage that this improvisioned expedient Some Eggs, Butter, Potatoes, Beans, &c., taken of an hour would, in due time give way before our national progress, the common cash or ready pay. growth of North and South, and West and every State. Arbitrary and artificial Europe may have been heretofore restrained and bounded by the imaginary lines traced in cabinets and visible only on maps; but this expansive, self-governing and boundless Union, in the inevitable progress of the whole, and each section and part of it cannot and ought not to be expressed and crippled by any lines except those of climate soil and physical surface.

In fact, the history of our republic, brief as it is, abundantly demonstrates that no legislation can stand long, unless it flows out from the fundamental Constitutional princiries that underlie and pervade our political existance, observe and suit itself to the great facts of nature, and consist easily with our progress. There is a continual improvement in comprehending the Constitution, and this ed that the transportation is but a mere trifle. approvement is forever magnifying the laws. With regard to the Missouri Compromise, the doubts of Madison and Monroe have now if desired. Now is your time o send orders and become denials among their successors in the your machines will be in readiness at harvest. sebool of strict construction. The gigantic increasement and strength of Northern Institituous, and Southern Institutions, and their simultaneous advance in the West, anihilate any fragile patchwork expedients to restrain them, and have rendered it absolutely neces-Ener that their national co-existance should be expressly and solemnly acknowledged to stand upon the constitutional ground itself of mational non-interference. Herein the philosophy of the recent Kunsas-Nebraska legislation. That sprung, it is true, from the strong and bold head of Stephen A. Douglas, but he was the mere exponent and instrument of the National Progress and Destiny, the human utterance of interior and resistless his-

That the Kansas-Nebraska Bill was a nat smal and logical sequent step in our country's march, is evinced by the conclusive and remarkable fact that nobody now thinks of 10storing the Missouri Compromise. Its repeal let loose an unprecedented storm of free soil agitation. Douglas and his associates in this great. Act were exposed to a ficthing ocean of objurgation, invective, and threat. The party that stood by Donglas, the Nebraska Bill, for a few months seeming to go down beneath the general surge and war. But today that party is strongest in the Presidential contest and the Republican alliance, much as it promises, threatens, and declaims, has ceased to demand the re-enautment of the Missouri Line. The Compromise lived only a generation. The very fact proves that it

CATHARTIC PILLS

CATHARTIC PILLS

OPERATR by their powerful influence on the internal viscers to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other ergans of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown curse of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to curse.

For Costiveness.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is irrequently the aggravating cause of Piles, and the cure of one complaint is the care of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspersia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the atomach and liver into bealthy action. They will do it, and the hearthern, bodyburn, and soulburn of dyspepsis will rapidly disappear. When it has gone, don't forget what cured you.

For a Forl Stonach, Bertschen, and all Diseases of the Skin, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervouners, Sick Headache, Nausea, Pain in the Somach, Back, or Side, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervouners, Sick Headache, Nausea, Pain in the Somach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take mere the next day u of the unclean diseases of the skin, because you system wants cleansing.

To PURITY THE BLOOD, ther are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every

LIVER COMPLAINT, JAUNDICE, and all Bilious Affections arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion wittate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Coativeness, or alternately costiveness and diarrhoza, prevails. Feverish symptoms, languor, low spirits, weariness, rextlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhoza, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

Resumatism, Govr., and all Inflammatory Febers are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely. LIVER COMPLAINT, JAUNDICE, and all Bilious

and all kindred complaints they should be taken in mild doses, to more the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Fill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed. PREPARED BY DR. J. C. AYER & CO., Practical and Analytical Chemists

LOWELL, MASS., ABEL TURRELL

PRE PROOFS. THE SALAMAND (RSAFES Lof Philadelphia against the world -Evans & Watson, No. 26 outh Fourth street, Philadelphia. have had the surest demonstration length fully warranted the representations which have been made of them, as rendering an un-

loubted security against the terrific element: PHILADELPHIA, April 12, 1856. MESSES. EVANS & WATSON:-Gents :- It affords us the highest satisfaction to state to you that owing to the very protective qualities of two
the Salamander Sales which we purchased of you some few months, since, we saved a large portion of our Jewelry, Books, Papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th inst.

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes, We shall take much pleasure in recommend ing them to men of business as a sure reliance against fire. GEORGE W. SIMONS & BRO.

PHILADELPHIA, April 12, 1856. Messes. Evans & Watson-I have to offer you my testimony in favor of the great security afforded to my entire stock of Jewelry, books papers, &c., during the recent disastrous confla gration in Ranstead place, from the fact that the same were contained in two of the Salamander

Safes manufactured by you. Having fallen from the fifth story of the Artiand exposed to a vast heat for a long time, the &c. Which we will sell for prompt pay, at preservation of the valuable deposits seemed to lower prices than any other establishment in every one who witnessed the opening and interithis County, or examination, a matter of profound astonish-

To all who may require a perfect protection recommend the use of your Safes, as I consider they have now undergone the most trying test. N. E. MORGAN,

PHILADELPHIA, April 14, 1856.

Mesars. Evans & Watson-Gentlemen-No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock and other valuable documents, when on Friday last I opened the Safe made by your firm. With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the fall from its former elevated, position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I feel it only due to say to you that I can hence forth recommend the use of your Safes to all who may wish to feel a confidence in the perfeet security which such means provides against

so frightful an element. EDWARD GASKILL, Bookbinder. Constantly on hand, Patent Powder and Thief Proof Locks, for Banks, Stores &c. April 24, 1856.—17y1.

Terrible Accident,
APPENED to Mr. Green the other day.—
He had bought a suit of ready-made clothes it the Store, and the first day's wearing the acident occurred, First, off drapt his contitail by the mere force of specific gravity, giving to un-fortunate man the apperance of a badly trimmed craft with the flying jib in the stern, and on stooping over to pick up the remnant, the dread-ful casualty took place—the fountains of the great deep were broken up-Green's pants were sundered from ankle to waist, and Green himself eemed to be. The only way to prevent such oplorable accidents is to patronize a skillful taior, who makes up his work with a determinaion that it shall not only fit neatly, but wear well. Green buys at the clothing store because he thinks he can get his gearing a little chaper, In all brobability the pants that served him so treacherously had passed through a fever hospital, been atriped from a cholera patient, carried home eight nights in the week on a shutter, and finally bleached and carried by an ingenious Frenchman for a market in the country Take warning by poor Green's mishap, and go to tailor shop like that in the basment of Searle's Hotel if you want to be suited.

Cutting done as usual, and all work war-anted. JOHN GROVES. Montrose Aug. 27, 1855. Books That Are Books.
