troduced, an advance in the wages of laborers has been the result, for the simple reason that every such machine, not only increases the wealth of the community—but induces a larger amount of cultivation, and furnishes the poorer classes of farmers with a greater supply of saleable products. No man who can purchase a perfect plow, or harrow, can now afford without a heavy loss to use any of the old fashioned wooden or wrought iron coulters and plow-shares! these instruments being now constructed with careful reference to the line of draft, the application of the moving power, and the manner in which it is brought to bear upon the draft, are constantly calling into active exercise all the higher and nobler efforts of mechanical genius: and your Committee exceedingly solicitous that every success full effort can be adequately recompensed, not by premiums of this society only, but by a constant and steady demand, for the manufactured articles. When we consider the finish and durability, the new process of chilling the points, hardening the entire edge of the share, and constructing the edge of the landside, we cannot avoid the conclusion that further and greater results have been attained, within the last ten years, than in half as many previous centuries, and we fully believe that every such improvement is only an inducement for further discoveries, our mowing machines, horse powers, drills, cultivators, harrows, horse-rakes, reapers, corn shellers, hand mills, straw and stalk cutters, will not only relieve the farmer from incessant toil, and give him leisure to cultivate his understanding: but will themselves operate as instructors, teaching him many things of which he would forever remain ignorant, and diffusing an amount of practical and mechanical intelligence, that may itself be turned to account in other pursuits. We are satisfied that the time is approaching when these things like rail roads and steam engines are fast becoming moral, physical, living necessities, without which every country must necessarily retrograde or remain in a state of semi-barbarism.

The Com. understand that the Judges of plowing have given their united judgment in favor of the cast-iron beam plow—and with this your Committee concur, the team is so much nearer the point of draft, the plow runs so much leveller and erener, the handle give so much advantage to the plowman, the permanency, durability and light draft all contribute to enhance the value of this most important of all implements, and your Committee rejoice to add that the new patent clevis which is itself a valuable improvement has been very generally adopted. Your Committee concur in awarding the premium to Merritt Mott for his cast-iron plow, $3.00

For the second best plow to S. H. & D. Sayre, for their improved Blatchley plow, $2. who have also exhibited a very handsome lot of stoves.

Your Com. award the premium for the best cultivator to M. & E. Mott, for their broad Cultivator three dollars.

No Straw or fodder cutters were entered for premiums, and of course no premiums have been awarded.

No Corn Shellers except those exhibited in former years were exhibited.

The committee saw no churns on the ground that they thought entitled to premiums:

No butter firkins were exhibited.

A patent horse rake was exhibited, but your committee did not consider it any improvement upon the revolving rake.

Two single horse buggy's were exhibited but they were not remarkable for any peculiar advantage, they were of excellent workmanship, and neatly finished one made by E. Rogers, and one by Howell.

The following new inventions were exhibited to each of which the com. award a premium of three dollars, viz:

To W. C. Tower for a stone drill worked by a crank and vertical wheel, $3

To George A. Tibbles for an improvement in Emerys' threshing machine by which the horse power can be detached, and stopped without stopping the Cylinder, $3

Samuel F. Lane claims an improved waggon break which is applied to the wheel by the holding in, or backing of the horses without any effort of the Driver except holding the reins, but the Com. do not award any premium thereof.

The committee are not sure that it is within their province, but they wish to make honorable mention of several lots of superior Horse Shoes exhibited by P. A. Wilmot, by O. O. Simmons, and by Q. I. McNemy, all of which were of excellent work.

To O. F. Fargo for a cheese press self acting they awarded a premium of $3

The Committee on Domestic Manufactures report premiums as follows:

Best rag carpet to Mrs. Phebe Bullard $3,00
Second best Lucy Sherman, $2,00.
Best wool carpet to Mrs M. Hunter, $3,00.
Second best, Mrs. A. Cassady, $2,00
Best flannel do. to Mrs I. Butts, $3,00.
Second best, Mary E. Harrington, $2,00.
Third best, C.R. Palmer, $1,00.
Best wool cloth, Mrs. J. Harrington $3,00.
Second best, C. R. Palmer, $2,00.

Many samples of quilts were exhibited and we found it difficult to decide.

Best quilt, Mrs. C. D. Lathrop, $3,00
Second best, Francis A. Hamsen, $2,00.
Third best, L. C. Miles, $1,00
Best socks, Mrs. I. Butts, $2,00.
Second best, E. Gardner, $1,00

They would also mention one quilt taken away before we found out the name, by a girl 5 years old, and one by Miss Jane Roneck 4 years old, nicely done and worth a reward of merit.

Report on Plowing.

The interest manifested in this important branch of farming is still continued.

The day was very fine for the business.—the sward to be broken was extremely dry and hard in consequence of the prevailing drought and rendered the plowing more difficult, than at any preceeding match, but we are gratified in saying that the Plowmen went into the spirit, and their performance would challenge competition with any other County. The number entered was rather less than last year which may readily be accounted for in the forbidding state of the soil which required more than usual nerve in man and beast to grapple with.

The teams and plows were as follows.

1st Edwin Taylor, 1 pair bay horses Blatchley No. 2 with wheel, time 1 hour 10½ minutes.

2nd, John F. Depue, 1 pair sorrell horses iron beam plow, Mott's make with wheel.—Time one hour 57 minutes.

3d, H. Harrington pair brown Mares Mott's iron beam, wheel and colter, time 1 hour 24 minutes.

4th, William Austin, pair brown horses.—Iron beam with wheel, time one hour 28 minutes

5th, Martin L. Catlin, pair very superior farm horses light-sorrell. Plow of his own invention, wheel and coulter, time 1 hour 48 minutes.

6th, Nelson Hawley, pair beautiful brown horses, fine size. Prouty's centre draft plow, wheel and coultre, time 1 hour 50 minutes.

7th, Merrit Mott pair grey horses. Iron beam, wheel and coulter, time, 1 hour 30 minutes.

The Committee as usual had much difficulty in awarding the premium where all performed so well. Some lands being ploughed with great readiness and handsomely turned over, but with less depth than was desirable, while others were ploughed with a little rough appearance but affording a deep and mellow arable soil.

With these views the Committee award the premiums as follws,

First to Martin Catlin, $5,00
Second Harrison Harrington, $4,00
Third Edwin Taylor, $3,00

In consequence of the close competition of the remaining four the Committee trust that the Society will agree with them in awarding a premium of $2,00 each for it must be acknowledged that a man who will bring his team to Plow several miles for the purpose of competing at this great branch of agriculture should not go unrewarded, all which is respectfully submitted.

Adel Cassady,
H. C. Conklin,
Dan. Baker, } Judges.

The Committee award the premiums on Plows as follows.

1st, to Mott's Iron beam plow, $2,00
2nd, to Martin Catlin a plow of his own invention, $2,00

Vaschall Morris of Philad'a. who had been expected to deliver the address, was prevented from attending, and short addresses were made by Wm. J. Allup and C. Carmalt former Presidents of the Society.

After which the reports of the Committies were adopted and the premiums directed to be paid with the exception of the discretionary premiums, which the Ex. Com. thought the funds of the Society were not sufficient to meet.

Holloway's Ointment and Pills are admirably successful with uniform success in inflammatory rheumatism. Warm fomentations should first be applied to the surface, in order to open the pores, and then the ointment rubbed in as quickly as possible. The aperient action of the Pills has the happiest effect in abating the fever, and it may be confidently averred that any species of external inflammation will yield to a perseverance of these two great remedies. The cases of erysipelas, salt rheum, sore legs, contusion, tumor, cancer, fistula, piles, and external injury resulting from accident, that have been cured by Holloway's Ointment, may be numbered by tens of thousands.

Democratic Meeting and Pole Raising.

The Democracy of the Western part of the county, will hold a meeting at Jackson valley, Saturday afternoon, the 18th inst. Hon. Stephen Strong of Owego. R. B. Little Esq. and others will address the people.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "Balm of a Thousand Flowers" as a dentrifice would not only render it sweet but leave the teeth white as alabaster! Many persons do not know their breath is bad, and the subject is so delicate their freinds will never mention it. Pour a single drop of "Balm" on your tooth brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A beautiful complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well, and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only fifty cents. Beware of counterfeits. None genuine unless signed by W. P. FETRIDGE & CO.

A MEDICAL REVOLUTION! THE WORLD UNANIMOUS!

HOLLOWAYS' OINTMENT.

The Great Counter Irritant!!

THE virtue of the disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

Skin diseases and Glandular Swellings.

Every species of exterior irritation is quickly reduced by the antiinflammatory action of this Ointment. Angry Eruptions, such as Salt Rheum, Elysipelas, Tetter, Ringworm Scald Head, Nettle Rash, Scabies, (or Itch) &c., die out, to return no more, under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

Ulcers, Scros, and Tumors.

The effect of this unrivalled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

Wounds, Bruises, Burns, and Scalds.

In cases of the fracture of the bones, injuries caused by steam explosions Bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

Undeniable Testimony.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun shot wounds. It is now used by the surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Sore Legs,
Burns,	Sore Breasts,
Chapped Hands,	Sore Heads,
Chilblains,	Sore Throats,
Fistula,	Sprains,
Lost,	Stiff Joints,
Gumbugo,	Salt Rheum,
Mercurial Eruptions,	Scalds,
Piles,	Skin Diseases,
Rheumatism,	Tetter,
Ringworm,	Ulcers,
Swelled Glands,	Venereal Sores,
Sores of all kinds,	Wounds of kinds.

UP in my comfortable sky Parlor, in the Brick Block, I am still engaged in the very interesting employment of "catching shadows." Of my success in my calling, my pictures are my witnesses. From Maine to California, from rock bound New England to far off prairie land, has led to me in possession of those un fading evidences of what the Daguerreotype Art has hitherto enabled me to accomplish.—For the encouragement that I have received I am truly thankful, and trust that the future will show a material increase both of patronage and gratitude.

But, for one thing I am *not* thankful. A few have *patronised* well, but *paid* alas: how poorly. New,

THIS IS TO CERTIFY,

That my stock of patience in certain directions is quite exhausted, therefore, *my dear forgetful friends*, just bear in mind that if you do not do *speedily* what you *promised* to do many months ago, *unpleasant consequences may follow.*

Such emphatic language applies to but a small number. To all the rest I subscribe myself,

your most obedient,
W. B. DEANS,

Watches, Watches.

JUST received by the Steam Ship Atlantic a few doz. more of my celebrated English Patent Levers, also a few extra fine six ounce Skelton Levers, in plain silver Hunting Cases. The above with my former stock, makes the largest and best assortment of *fine watches* ever exhibited in western N. Y., all of which are of my own importation, and warranted first rate time keepers.

ONWARD AND UPWARD.

THE BORDER RUFFIANS ON MAIN STREET

DEPARTING.

AND the endeavor to palm off that "*Extensive stock of superior quality*" of goods, lately received from an old broken down establishment in Binghamton, has proved an entire failure to our friends *down town*. "*Seeing is believing.*" We acknowledge the fact. And should judge that "seeing" (without wearing) would be all that was necessary to convince the public that

SIMMONS & MERRIMAN,

at their store on Public Avenue first door above the Post Office, have the largest and most desirable stock of BOOTS and

SHOES

ever introduced into this market, which for price, (we offer no competition with *second rate goods*) durability and style, we challenge competition. We are receiving weekly from the best Houses in New York, the latest styles and best qualities of Goods, which keep our assortment complete.

Just received a large addition to our former stock, consisting of Gents Patent Leather Boots, Patent Leather Short Boots, French Calf Boots, Gaiters, Shoes and Slips, all styles. Ladies Gaiters, Buskins, Slips and Boots, best qualities. Also, Boys, Youths and Childrens Boots, Gaiters and Shoes, the best in Market. In fact every thing belonging to the trade.

All kinds of Leather, Findings, &c. All kinds of work made to order and repairing done neatly.

AGRICULTURAL IMPLEMENTS.

E. F. TUPPANY,

OF DIMOCK, Susq. Co., Pa.,

Wholesale and Retail Dealer in EMERY'S & BROTHER'S, and WHEELER, MELICK, & Co's Rail Road Horse Powers, Threshers and Seperators, Threshers and Winnowers combined.

Reapers and Mowers combined. Mowing and Reaping Machines, of six or seven different Patentees, among which are McCormick's, Burrall's, Manny's, Wrights, and the celebrated Ketchums Machine, which is warranted to work to the satisfaction of the purchaser. The little Giant Corn and Cob Mill, the Nimble Giant, Feed Mills, with iron plates. French Bur stone mills, for farm or mill use. Portable Circular Saw Mill with 24 inch saw, for wood cutting &c., extra table and saw for slitting boards and fencing stuff and general shop use. Upright or Felloe saw for Wheelwrights use. Cross-cut saw arrangements, greatly improved to attach to Power for cutting wood in the log, (it will cut off an 18 inch log in one minute.) Emery's portable Cider Mill and Press, the best in use, Fanning Mills filled for Powers. Power corn shellers, Power Feed cutter, Improved dog Powers, Clover Hullers. Wind Mills, of various sizes, Stump Machines, Hay Presses, Field Drill Sower, Lime spreader, Field Roller, Fountains of various patterns, Improved Hydraulic Ram, Agricultural Furnaces, Patent self-acting Cheese presses, Churns of various kinds, Cultivators and Plows of every description, Leather and Rubber Belting, and various other implements. In fact almost any implement a farmer may wish, or any one else may desire except gimlet handles and scandal, which no doubt can be obtained at the great manufacturing establishment (as is represented or misrepresented) in Brad. Co. They also manufacture an excelsior Fanning Mill, (they call it) which may be very valuable if it is capable of blowing or clearing the chaff from the proprietor. Ah! what would be left!

I would say to those who may have been humbugged, that Emery's or Wheeler's Railroad Horse Powers, Threshers &c., are not made or allowed to be made this side of Albany; also to those wishing to purchase either Emery's or Wheeler's Machines, that Emery or Wheeler has not authorized or desire Mr. H. L. Blowers to sell their machines.

Descriptive catalogue price List and circulars of nearly all machines sold by me, sent gratis and postage pre-paid, to all applicants. Send your name and address.

Now farmers is your time to make from 12 to 25 or 30 per cent. on your investments. Remember I get my machines direct from the Manufactors. I've no middle man with whom to divide my commission, as is the case with some others. All machines sold by me are warranted to give satisfaction or may be returned if not as recommended. See large hand-bills, circulars, &c.

Important to Farmers.

New Freight Line from Montrose.

DILL & ARMSTRONG,

Commission Merchants, No. 3, Erie Buildings.

FOR the better accommodation for the farmers of Susquehanna County we have concluded to receive freight every day in the week, (Sundays excepted) at the store of M. S. Wilson & Son, who will attend to shipping the same to New York, and the return bills be paid in cash at their store.

Capt. Wickham is their salesman, whose long experience on the N. Y. & E. R. R., flatters himself that justice will be done to his patrons with the above arrangement, we invite the farmers to give us a trial.

JUSTUS DILL.
