LECOMPTON, K. T., Oct. 10, 1856. MESSRE, EDITORS :- The unexpected success of G.A. Genry in restoring peace to this troubled Territory so soon after assuming the executive office, must be a source of sincere gratulation to all good citizens of the American Union, to whatever section they may be attached, or whatever may be their peculiar political complexions. There are some parties, no doubt, who would have preferred the deferment of this desirable event until after the Presidential canvase, as it has deprived them of their most effective electioneering chunder. To these, "pence in Kansas," is most disagreeable news, which it is quite evident they are extremely louth to believe .--False and Inmentable statements of the awful condition of things here, still find places in their publications, for the inworthy object o. political speculation. A general determination seemed to prevail to cultivate a spirit of industry, peace and good order. .On bur return to Lecompton we stopped at various of the settlements, and, in every in stance, found the families entirely freed from all appehensions of further disturbance," and in the enjoyment of the fullest contentment. In Liwrence and along the road the inliab tauts generally acknoweled a feeling of tlink fulness and joy that the political tricksters and demagogues had departed from the countiv, and all expressed the hope that they wolud never be permitted to return. The

opinion among the actual citizens is universally entertained, that the men brought into the territory by these agitat rs, ostensibly to

protect its injured citizens, but actually to plunder and destroy, brought with them all the elements of indolence, vice and crime .-Hundreds of these miserable wretches, now have been made, and no longer daring to continue their acts of violence, are left here a burden to the territory and a curse to its pros perity. The good people of the North and of the South, whose money collected these vagabonds together, and sent them here to prev upon the substance and blast the happiness of

We neither want their money, their agents, nor the class of sen they send us.---

These are the brigands, the incendiaries and assassing with which the territory has been overrun. We have industry, wirtne and pacriotism enough among our inhabitants to quarit our own interests; and so long as we can keep back the destructive pressure on outside influence and interference, we shall have no more obstacles to surmont nor diffi culties against which to contend.
