Who is to receive the ed, who has been through all the struggles during the summer and fall, and whose family has just arrived from Rockford, Ill.! Mr. B. was induced to come out here by the Rockford Committees with the promise of being provisioned for a year, and they likewise agreed to assist his family, but started them off without money enough to pay their way. It appears that the committee has been "weighed and found wanting," and there are several of the Rockford men destitute in consequence.

It is time these transactions were exposed so that no more persons may be dured by the committees, or by those who are soliciting aid for bleeding Kansas.

I think it my duty to put the whole matter in a true light before the public, as the several committees have been written to repeatedly and co reply.

The Machines are constructed with two cranks, and pully for a belt, so that two persons can turn them, or attach a belt in motion by any power. The attention of persons owning mills, is soluited, as the Muchines are wonderfully adapted to any kind of power. They are very easily turned, and when once in motion a small boy can turn them; they are capable of sores, is almost miraculous.
