Montrose, June 10th, 1857. Horrible Smash Up!

CAR RUN OFF THE DUG WAY! And Twenty-Five Dollars Destroyed! the other day of a lady who had lately been fitted with a Full Set of Artificial Teeth on the New Plan. Soon after the teeth had been adjusted in the mouth a kind of spasmodic twiching of the muscles of the lower jaw was felt, and from that her mouth commenced to open and shut with such rapidity and violence, that all she could do she couldn't stop it. She was of course almost seared to death and so was the Doctor. Springing forward he seized the jaw and holding it with all his might he finally succeeded by a prodigious exertion in pulling the teeth out of the mouth, and here the violence of the tragedy ended. But the saddest part of the story remains to be told. Imagine the lady's distress when she discovered that her splendid set of teeth for which she had just paid three hundred dollars had completely eaten themselves up. This lady from last accounts was still suffering from a pain in the jaw, which, we had forgotten to say by the violent contractions of the Digastricus, was slightly dislocated. Now it is to be most devoutly hoped, for the sake of humanity that the profession will take warning by the unhappy fate of this lady, and be cautious how they employ their skill in all its most modern and perfected forms, for without doubt had the doctor. failed to get out these teeth they would have eaten the poor lady to death. Be assured, friends, I shall endeavor to keep clear of such jaw breakers, by putting into my sett of teeth just the amount of the eating propensity which is practi-cable and safe. You will find me at almost any time except meal time or night time in my office over Wilson's store, west end of Brick Block. with a heart almost bursting with thanks for past favors, and ever at your service for a mod-

orate return.
