KENNEDY,S Medical Discovery, for sale by ABEL TURRELL. CITAFFORD'S Olive Tar, at

the greater part of his life in travelling, having visited Europe, Asia, Africa and South America Emery's Unrivalled Horse Powers.

THRESHERS and Separaters, Threshers and Cleaners, Circular and Cross Cut saws, Mill Saws, Shingle Machines, dec., Emery's the first man to establish the fact that all diseases arise from Empurity of the proop-that our lightly and Krassay's Cider Mills and Property of the proop-that our lickok's and Kranser's Cider Mills and Presses, strength, health and life depend upon this fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its acion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name: our strength is exhausted, we are depriv ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood will become stagnant and cease to act, and thus our light of life be forever blown out. How important is it then to keep the passages of the body free and open. And how plescent to us to be athat grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second September next. Two of Kerchun's Light which is a plant is an Expectorant, that opens Two Horse Mowers, with four foot cutter and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the lungs by copious spitting. The third is a Diaretic, which gives ease and double strength to the kidneys: thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the urinary or enter passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in parifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach. but become united with the blood, for they find way to every part, and completely cleanse the water from all impurity, and the life of the body which is the blood, becomes perfectly healthy;— consequently all sickness and pain is driven from the system, for they cannot remain when the bonext term of said court to be held at the court popple are so distressed when sick, and so many house in Montrose, in and for said county, on the die, is because they do not get a medicine that mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery until life is taken from the body by disease. Dr. Morse's PALLS have added to themselves victory upon victory, by restoring millions of the sick to health and happiness.— Yes thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorefied by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the desease, which is the blond sole Boots and Shoes, of the best manufacture,

WE THE UNDERSIGNED, (after using last season,) the Independnt Tooth Horse Rake, take pleasure in recommending it, for the fellow-

1st. That it will rake more Hay in the same time than any other Rake in use. 2nd. That while other Horse Rakes are laborious to operate, this is managed with comparative

ease, and in fact with pleasure, as the operator rides on the Rake while raking, and it can be op orated by any boy cryable of managing a Horse 3d. That other Horse Rakes which have been introduced into this section, (that will operate on rough meadows,) tear up the sods, roll over the loose stones, and twist up the Hay so as to make the other handling inconvenient. This Rake leaves the Hay in the same condition as the old Hand Rake, clean, free from dirt and stones and easy to nitch.

Horrible Smash Up! CAR RUN OFF THE DUG WAY!

And Twenty-Five Dollars Destroyed! DUT this bears no comparison in horror with B what we are about to relate. Y ohave probably all heard of the man with a cork leg so perfectly adjusted that it " walked itself," and kept on walking till it walked him to death and then ran off with his anatomy. But this is of the muscles of the lower jaw was felt, and from that her mouth commenced to open and shut with such rapidity and violence, that all she could do she couldn't stop it. She was of course almost scared to death and so was the Doctor Springing forward he seized the jaw and holding it with all his might he finally succeeded by a prodigious exertion in pulling the teeth out of the mouth, and here the violence of the tragedy ended. But the saddest part of the story remains to be told. Imagine the lady's distress when she discovered that her splendid set of teeth for which she had just paid three hundred dollars had completely eaten themselves up. This lady from last accounts was still suffering from a pain in the jaw, which, we had forgotten to say by the violent contractions of the Digastricus. was slightly dislocated. Now it is to be most devoutly hoped, for the sake of humanity that the profession will take warning by the unhappy fate of this lady, and be cautious how they employ their skill in all its most modern and perfected forms, for without doubt had the doctor, failed to get out these teeth they would have eaten the poor ledy to death. Be assured, friends, I shall endeavor to keep clear of such jaw breakers, by putting into my sett of teeth just the amount of the eating propensity which is practi-cable and safe. You will find me at almost any time except meal time or night time in my effice over Wilson's store, west end of Brick Block with a heart almost barsting with thanks for past favors, and ever at your service for a mod-

erate roturn.
