Above we present you with a likeness of Dr.

MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spect

the greater part of his life in travelling, having visited Europe, Asia, Africa and South America - spent 3 years among the Indians of our Westrn country,-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from impurity of the blood-that our strength, health and life depend upon this fluid When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its cion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are deprived of our health, and if nature is not assisted in throwing off the stagment humors, the blood will become stagmant and cease to not, and thus our light of life be forever blown out. How impor-tant is it then to keep the passages of the body fire and open. And how plescant to us to be a-ble to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots garden, for the health and comfort of diseased man. One of the roots from which these Pills 28in4. are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and uncloss the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the lungs by copious spitting. The third is a Diaretic,—which gives ease and double-strength to the kidneys; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the urinary or sater passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties Morace Stanley and Lucy Heald, and Edward of the Pills while engaged in purifying the blood; Stanley, Mathew Stanley, Immes Stanley, Horace the courser particles of impurity which cannot Stanley the courser Regions C. Stanley, Horace pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's children and heirs of Mathew Stanley, deceased. Indian Root Pills not only enter the stomach, In Partition, in the Court of Common Pleas of but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. The reason why poeple are sol distressed when sick, and so many die, is because they do not get a medicine that will pass to the afficted parts, and which will open the natural passages for the disease to be cast out, hence, a small quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring milions of the sick to health and happiness.

Yes thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the

Therefore, it will be shown, especially by those

IZHMERS of SUSQ'a Co MAKE HAY: WHILE THE SUN

SHINES! WE THE UNDERSIGNED, (after using last season,) the

Independnt Tooth Horse Rake, ake pleasure in recommending it, for the following reasons: 1st. That it will rake more Hay in the

same time than any other Rake in use. 2nd. That while other Horse Rakes are laborious to operate, this is managed with comparative Stoddard's Mathemetical Series. Clark's case, and in fact with pleasure, as the operator rides on the Rake wille raking, and it can be opadvanced classes in Grammar, should furnish orated by any boy capable of managing a Horse. 3d. That other Horse Rakes which have been introduced into this section, (that will operate on rough meadows.) tear up the sods, foll over the loose stones, and twist up the Hay so as to make the other handling inconvenient. This Rake leaves the Hay in the same condition as the old Hand Rake, clean, free from dirt and stones and easy to pitch.

> 4th. This Rake is less liable to get out of epair, and can be easily mended without going off the Farm. 5th. The Teeth being all hung independent feach other, when an obstacle is in the way while raking, no more Teeth are raised from the

binding, at the same time raking over the whole

Leather | Durate quite tame compared with a story that we heard the other day of a lady who had lately been fit-ted with a Full Set of Artificial Teeth on the New Plan. Soon after the teeth had been adjusted in the mouth a kind of spasmodic twiching of the muscles of the lower jaw was felt, and from that her mouth commenced to open and shut with such rapidity and violence, that all ahe could do she couldn't stop it. She was of yourse almost scared to death, and so was the Doctor. Springing forward he seized the law and hold-ATTENTION I ing it with all his might be finally succeeded by a prodigious exertion in pulling the teeth out of the mouth, and here the violence of the tragedy ended. But the suddest part of the story mains to be told. Imagine the lady's distress when she discovered that her splendid set of teeth for which she had just paid three hundred dellars had completely enter the market size. This ing it with all his might he finally succeeded by dollars had completely eaten themselves up. This lady from last accounts was still suffering from a pain in the jaw, which, we had forgotten to say the violent contractions of the Digastricus, To Lumbermen and Coopers.
