Above we present you with a likeness of Dr. iORSE - the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent he greater part of his life in travelling, having visited Europe, Asic, Africa and South America -spent 3 years among the Indians of our Western country,-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from impunity of the blood-that our trength, health and life depend upon this fluid. When the various passages become elogged and do not act in perfect harmony with the diff-erent functions of the body, the blood loses its acion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and it nature is not assisted in throwing off the stagnant humors, the blood will become stagnant and cease to act, and thus our light of life be forever blown out. How impor tant is it then to keep the passiges of the body free and open. And how plescant to us to be a ble to put a medicine in your reach, viz.; Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diaretic,which gives e se and doubte strength to the kidneys; thus encouraged, they draw large amounts d impurities from the blood, which is theh thrown out bountifully by the prinary or vater passage, and which could not have been ischarged in any other way. The fourth is a Cathartic, and accompanies the other proporties of the Pills while engaged in parifying the blood the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and onveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's ndian Roof Pills not only enter the stem wh. but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy: onsequently all sickness and pain is driven from

he system, for they cannot remain when the boy becomes so pure and clear. The reason why eple are so distressed when sick, andso many fie, is because they do not get a medicine that will pass to the affected parts, and which will open the natural passages for the disease to be east out, heree, asmill quantity of food and othor matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable formentaion, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until like is taken from the body by di-case. Dr. Morse's PALLS have added to themselves victory upon victory, by restoring mil i ms of the sick to health and happiness.— Yes thousands who have been racked or tor. mented with sickness, pain and anguish, and whose feeble frames have been scorehed by the barning elements of raging fever, and who have been broughtens it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead. had ine, Morse's Indian Root Pills, After I or 2 doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate

case and strength, and take away all sickness. o dn and anguish, but they at once go to work at the foundation of the disease, which is the blood sole Boots and Shoes, of the best manufacture Therefore it will be shown, especially by those who use these lills, that they will so clearse and purify that disease-he deadly enemy-will take its flight, and the flush or youth and beauty will again return and the prospect of a long and happy life will cherish and brighten your days. 2-3" Beware of counterfeits in yellow TN almost en'ess variety, of kinds, quality and wrappers-all genoise are in BLUE, with the sig. ABBLATURRELL. Montrose, June 10th, 1857. Horrible Smash Up!

CAR RUN OFF THE DUG WAY? And Twenty-Five Dollars Destroyedla BUT this bears no comparison in horror with what we are about to relate. Yo have probably all heard of the san with a cork leg a perfectly adjusted that it "walked isself," and kept on walking till it walked him to death and attend to prosecution of claims of soldiers, their then ran off with his anatomy. But this is quite tame compared with a story that we heard the other day of a lady who had lately been fit. ted with a Fall Set of Artificial Teeth on the New Plan. Soon after the teeth had been adjusted in the mouth a kind of spreamode twiching of the muscles of the lower jaw was felt, and from that her mouth commenced to open and sout with such rapidity and violence, that all she could do she couldn't step it. She was of course Cutlery, Carriage Trimmings, Springs, &c. almost seared to death and so was the Doctor. No. 245 Pearl Street, N. Y almost seared to death and so was the Doctor.

No. 215 Pearl Street, N. Y.

Springing forward he seized the jaw and hold Where his Mercantile friends, in this and other ing it with all his might he finally succeeded by Counties, are kindly invited, and EARNESTLY 80a pradigious exertion in pulling the teeth out of the mouth, and here the violence of the tragedy ended But the saddest part of the story remains to be told. Imagine the lady's distress when she discovered that her splendid set of teeth for which she had just paid three hundred dollars had completely eaten themselves up. This lady from last accounts was still suffering from usual good manner. a pain in the jaw, which we had forgotten to say by the violent contractions of the Digustricus, was slightly dislocated. Now it is to be most devoutly hoped, for the sake of humanity that the profession will take warning by the unhappy fate of this lady, and be cautions how they employ their skill in all its most modern and perfeeted forms, for without doubt had the doctor, tailed to got out these Access they would have eaten the poor lady to death. Be assured, friends,

with a heart almost bursting with thanks for past favors, and ever at your service for a mod erate return.
Yours thankfully,
