What is Life Without Enjoyment? Facts of vital importance.-The beautiful semi-transparent envelope lu which Nature has enclosed the wonderful mechanism of the human body, is peculiarly sensitive to the aubtle influences which for lack of a more specific term, we call infection and contagion. 10 Many eruptive diseases are communicable by the touch, and salt rheum, one of the most common cutaneous maladies in this country is generally considered contagious. It is a painful and disfiguring disorder, and in its chronic form is apt to become hereditary .--But in whatever shape it may appear, howev er exaggerated the symptoms, and whether 601 Contracted by accident or derived from an in herited taint in the blood, it may be extirpated by the application of that peerless external curative, Holloway's Ointment. Science had been groping for ages after something that would restore to the diseased skin, its purity, freshness, smoothness and flexibility. when Professor Holloway introduced this inestimable preparation, and in no superficial disorder have its effects been more salutary than in Salt Rheum. We have seen it applied after the Lebanon waters, sulphur baths; and and every prescription in the pharmacoposia had been tried without the slightest benefit, and have known a perfect cure accomplished through its agency in six weeks. Sometimes the disease, after having passed through the earlier stages of a watery eruption and a viscions suppuration, assumes a scabious form. and is not unlike certain species of leprosy.-In cases of this kind the itching is almost maddening, and as it is generally increased by warmth, the bed of the sufferer is only a bed of torment. Most physicians pronounce this phase incurable. Holloway has no such word in his vocabulary; and it is when the - recourge has reached the extreme point of vir ulence, that the Ointment achieves its most marvelous triumphs. A reaction at once commences. The external vessels recover their tone and vigor, the irritated nerves that three months ago, will resume on the 15th of torment the skin are soothed, the pores resume their healthful functions, and the virus of the disease is expelled from the exterior circulation and exhaled from the system. In fact it may be said of Holloway's Ointment.

"It droppeth like the centle dew from Heaven upon the place beneath," eradicating by its balmy, yet searching influonce, every kind of exterior inflammation .-We have dwelt more particularly upon its operation in Salt Rheum, because the complaint is so general and we are cognizant of the fact here stated. The Ointment, and evaporent ord inarily prescribed for it, are at the best mere paliatives, and in many instances they throw back the external fire upon the vital organization producing serious affections of the lungs or brain. Holloway's Ointment, on the other hand, extinguishes instead of transfers." Like his equally celebrated internal remedy, it has a reputation founded on twenty years of uninterrupted success,-N.Y. "Sunday Mercury."

as Portin said of Mercy,

Hints for the Season.

1. Now is the time-a late time we admit to cut all briars and weeds of various kinds that may be growing in corners or uncultivated nooks. If the seeds are mature enough to germinate, be sure not to scatter them .-Gather the plants, and burn the whole.

2. Do not forget to keep your yard and garden neat. This is apt to be neglected now, because most gardens have yielded nearly all they will this year. But these weeds men and women we see with their frees covered will show themselves for next year, unless with pimples and blotches, who are trying to rethey are destroyed. Besides something is move them by the use of scope and washes of township of Liberty will he he destroyed and taste. due to neatness and taster 3. Do you pick up all the apples every day

and have the defective ones fed out to pigs or cattle? If not, begin at once to do so .-Those apples that have fallen, are likely to have worins in them. These worms multiply tanidly, if not destroye's Gathering them each day, and feeding them out, prevents this propagation greatly. The nourishment in these apples will pay for the trouble. But the great reason for this operation, is the future value of your orchard.

4. If you have pears that are ripening, do not let them hangeon the tree. Gather them now, and let them finish ripening in some ness are greatly improved thereby. Besides, you thus save them from pilferers.

5. Early grown mendows have now a secand growth of grass, almost fit to mow, so abundantly have been the rains. When such meadows are in or near orchards, we suggest that they may be mown, or in some way fed off, else they will furnish homes for hosts of mice during the next winter. We have in mind two instances where flourishing orchards have been nearly destroyed by mice burrowing for the winter in the grass of the preceeding year, which was left unmown.

6. As far as you can, estimate the amount of everything your farm produces this In Jessup, Aug. 17th, by Eld. H. H. Gray, year: Spare a little time on this matter. Be Mt. LYMAN CARTER and Miss SUSANNA accurate. Persuade your neighbors to do the same. Compare this with former years; study the cause of difference. You will find some curious things to think of, if you do so. 7. The season of Fuirs is at hand. We recommend to all, to get their work out of

two at least. Have something, too, to exhibit, BROWNELL, both Clifford. and take it along. It may take the premium, and if it does not, it may give a bint, which will enable you to deserve, if not get the pre- BARNUM, both of the above place. mium next vear.

8. Finally, for this week, we wish to furnish one hint which we hope will last for the whole season. It will do great good, if heeds ed. It is this: In gathering valuable fruit, never shake it off. Always pick it with the hand, and place it, without bruising, in baskets. For the same reason, do not pour the fruit into bags, barrels, or out upon the floor. In handling it, always move it in the gentles. way. It requires some care and experience to save fruit well .- Ohio Farmer.

A CONJUGAL TRIAL.-At Zurich, in former times, it was a custom, when a married cour duty and propriety, I am constrained to announce may express their desire by voting each as many le applied for divorce on account of incomle applied for divorce on account of incompatibility of temper, for the magistrate to shut tip the pair for a fortnight in an isolated tower on the lake. Not only were condemned to a common room, but they were supplied with only one bed, one chair, one knife disposed to sustain me upon the discount of the printed ballots or tickets, containing on the inside thereof the words. For the Amendments, and those who are opposed to such Amendments, or any of them, may express their opposition by build a sufficient number of my fellow citizens and those who are opposed to such Amendments, or any of them, may express their opposition by build a sufficient number of the office—build as a sum of the office of the office—build as a sum of the office—build as a sum of the office—build as a sum of the office of the office—build as a sum of the office of the office—build as a sum of the office of the office—build as a sum of the office of the offic on mutual complaisance. If, after the expiration of the fortnight, they persisted in their resolution, the tribunal ordered a serious examination of the case, and if possible the divorce. But in general the quarreleome pair did not wait for the end of the trial to which they were subjected, to become reconciled the dust of the question, after a fair and candid view of the words, "Against the Amendment;" and also that the election on the said proposed Amend ments shall in all respects be conducted as the General Elections of this Commonwealth are now conducted; and it shall be the duty of the public advantage, which three now conducted; and it shall be the duty of the words, "Against the Amendment;" and also of the said proposed Amend ments and also of the said proposed Amend ments and also of the said proposed Amend ments and also of that the election on the said proposed Amend ments and also of and one fork, so that their comfort depended they were subjected, to become reconciled and to request to be released .- Galignania

GENIUS .- Intellect can't bear fashionable refinement, and dies under it in one or two generations. If you would select a youth who is likely to make his mark in the world take one who is carting mud in a class shell take one who is carting mud in a class shell take one who is carting mud in a class shell take one who is carting mud in a class shell take one who is carting mud in a class shell take one who is carting mud in a class shell take one who is carting mud in a class shell to the office of Tremsurer, hoping to receive the office of the office of Tremsurer, hoping to receive the office of Tremsurer, hoping to receive the office of the office of Tremsurer, hoping to receive the office of the office of Tremsurer, hoping to receive the office of New Hampshite mother in a second hand sugar platform. E. E. GUILD. The books and accounts can be found at the

Above we present you with a likeness of D ORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spext the greater part of his life in travelling, having visited Europe, Asia, Africa and South America
-spent 3 years among the Indians of our Western country, it was in this way that the Indian
Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD-that our strength, health and life depend upon this fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its acion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and if nature is not assisted it hrowing off the staguant humors, the blood will become atagnant and cease to not, and thus our light of life be forever blown out. How important is it then to keep the passages of the body free and open. And how pleatant to us to be a ble to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roofs from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the lungs by copions spitting. The third is a Diarelic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the arinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in parifying the blood; the coarser particles of impurity which cannot conveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach,

but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy:consendently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. The reason why poeple are so distressed when sick, andso many die, is because they do not get a medicine that will pass to the afficted parts, and which will open the natural passages for the disease to be cast out; hence, a small quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every ven and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring miliions ot the sick to health and happiness.-Yes' thousands who have been racked or tormented with sickness, pain and anguish, and who use these Pills, they they will an cleaned and purify, that disease the deadly enemy-will take its flight, and the flush of youth and beauty will about return, and the prospect of a long and happy life will cherish and brighten your days. Beware of counterfeits in yellow

wrappers—all genuine are in Blue, with the signature of A. J. White &Co., on each box. July 1st, 1857. T. KINGSFORD & SON'S PURE

OSWEGO STARCH (FOR THE LAUNDRY,) AS established a greater celebrity than has ever been obtained by any other Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established. The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to foreign coun-

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect uniformity in the quality throughout the year.
This is the great Desideratum in Starch making; and is realized now for the first time.

The very best Starch that can be made, and NO OTHER, is always wanted by consumers, and of 95 acres in Bridgewater, four miles east this will be supplied to them by the grocers, as this will be supplied to them by the grocers, as the premises a large framed Dwelling House, a soon as their customers have learned which is

ABEL TURRELL. Montrose, June 10th, 1857. Horrible Smash Up!

A CAR RUN OFF THE DUG WAY

And Twenty-Five Dollars Destroyed! BUT this bears no comparison in horror with what we are about to relate. You ave probably all heard of the man with a cork leg so perfectly adjusted that it "walked itself," and kept on walking till it walked him to death and then ran off with his anatomy. But this is quite tame compared with a story that we heard the other day of a lady who had lately been fited with a Full Set of Artificial Teeth on the New Plan. Soon after the teeth had been adjusted in the mouth a kind of spasmodic twiching The election for the district composed of the township of Lessup will be held at the house of Grow & Brothers in said township.

This lady from last accounts was still suffering from a nation, the jaw which we had fornotten to say by the violent contractions of the Digastricus, was slightly dislocated. Now it is to be most devoutly hoped, for the sake of humanity that the profession will take warning by the unhappy fate of this lady, and be cautious how they employ their skill in all its most modern and perfected forms, for without doubt had the doctor, foiled to get, out these teets they would have

failed to get out these teeth they would have eaten the poor lady to death. Be assured, friends, I shall endeavor to keep clear of such jaw breakers, by putting into my sett of teeth just the amount of the eating propensity which is practicable and safe. You will find me at almost any time except meal time or night time in my office over Wilson's store, west end of Brick Black. with a heart almost bursting with thanks for past favors, and ever at your service for a moderate return.
Yours thankfully,
C. D. VIRGIL. Dentist, Montrose. Ps.

Cash for Wool. H. BURRIT will pay the highest price for Woot, in Cast or Goods, at his store in New Milford. July 4th, 1857.
