Important Discovery. CONSUMPTION, and all diseases of the LUNGS and THROAT are, positively carable by INHALATION, which conveys the remedies to the eavities in the lungs through the air passa ges, and coming in direct contact with the disease neutralizes the tubercular matterial lays the cough causes a free and easy expectoration, heals the lungs, purifies the blood, imports renewed vitality indispensable for the restoration of the health. THE FOLLOWING STATEMENT Ayres Pills and Cherry Pectorial, Tanner's To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unalloved pleasure. Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave the beant ful, graceful and gifted. By the help of the Sapreme Being from whom cometh every good and Philladelphia, Cify and perfect gift, I am enabled to offer to the afflicted. County Bonds permanent and speedy, cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which the sures weak-ened vitality thro' the entire system. Then sure-firm and Consolidaly it is more rational to expect greater good from medicines entering the envities of the imags than Deposits, with Ducan, from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling the remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated without | the slightest pair; inhaling the ordinary barning gas will destroy life in a few bours. The inhalation of ammonia will arouse the sys-

or or many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convinging proof of the constitutional ging proof of the constitutional effects of juhala tion, is the fact that sigkness is always produced by breathing foul air-is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest result! During 18 years | practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treat ment of Consumption is original, and founded on long'experience and a thorough investigation. My perfect acquaintance with the nature of tubereles, etc., enables me to distinguish, readily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even in a single case. This fam-Harity, in connection with certain Pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the

entire system.

It matters not from what cause the disease originated, how everlong standing or obstinate the case, Ercov-ERY is CERTAIN, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has bailled the skill of eminent physicians and resisted all their means of cure. The indicines are pleasant without odor, enusing no sickness, and free from mercury or balsam. During 20 years of practice Thave rescued from the jaws of Death many thou sands, who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who place themselves under my care, a perfect and most speedy cure. Secret dis cases are the greatest enemies to health, as they are the first cause of Consumption, Scrofala. and many other diseases, and ought to be a terror to the human family. As a promatent cure is scarcely ever effected, a majority of the cases fol-ling into the hands of incompresent personal who not only fail to cure, the diseases, but ruth the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consump ion.

disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself is Scrofula, Tetter, Ulcers, Eruptions, and other af fections of the skin, Eyes, Throat and Lungs, on tailing upon them a brief existence of suffering and consigning them to an early grave. SELF AMUSE is another formidable one my to health, for nothing else in the dread eatalogue of human diseases causes, so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper developement of the system, disqualifies for mai riage, society, business, and all earthly happiness. and leaves the sufferer wreeked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speely Cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.
The afflicted are cautioned against the use of Petent Medicines, for there are so many ingenions snares in the columns of the public prints to eated and roll the newary sufferers, that millons have their constitutions rained by the vile compounds of quack doctors, or the equally poison ous nostroms vended as "Patent Medicines." have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of moreury and a deadly poison, which instead of curing disease disables

Dr. Atti: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pluting away for morthin. Went off to be doctored at great expense, but got no beffer. She then commenced taking your Pills, which some sured her, by expelling large quantities of worms (dead) from her looly. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doese of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even them. Such a medicine as yours, which is actually good and honest, will be prized here.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful curse of pulmonary complaints have made it already known. Nay, few are the ismilies in any civilized country on this continent without actue remonal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its rictory over the solvile and dangerous diseases of the threat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that sicals upon them unprepared. We have abundant grounds to believe the CHERDY PROTORAL SACES more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, may here lect them until no human skill can master the inexerable ganger that, factored as size wited, eats your life away. All know the dreadful Batality of thing disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

October, 1st, 1856. FARMERS! 315 will purchase one of the best CORN SHELLERS and SEPARATORS

Ever Invented. THE undersigned is now prepared to furnish to FARMERS, Millers and others the world renowned Excelsior Corn Sheller-the wonder of the times-being the best, most durable, and easiest running Sheller now in use. Warranted to shell more corn in a shorter space of time than any other machine, entirely cleaning the ear, from end to end, without crushing either

The Machines are constructed with two cranks, and pully for a belt, so that two persons can turn them, or attach a belt in motion by any power. The attention of persons owning mills, is soluted, as the Machines are wonderfully adapted to any kind of power. They are very easily turned, and when once in motion a small boy can turn them; they are capable of shelling one bushel per minute-every Farme

should have one-as they save their cost, in les than one seasons. They are on exhibition at Searle's Hotel Sayre's Foundry, Ely's Mill in Brooklyn, and at Lathrop's Lake Mills, where they can be seen in operation at any time. All orders addressed to the undersigned, will receive prompt attention. Machines shipped at a distance and war-D. D. SEARLE.

CERTIFICATE. THIS is to certify, that I have examined and used one of the above Shellers, for sale by D. D. SEARLE, and unhesitatingly pronounce it, one of the best, most durable and easiest running Shellers ever introduced into this county. It will shell more corn in a shorter time than any other Machine, and is always ready for service. I most heartily and freely recommend them to the Farmers of Sasq'a County, as the cheapest
