Important Discovery.

CONSUMPTION, and all diseases of the LUNGS and THROAT are positively curable by INHALATION, which conveys the remedies to the cavities in the lungs through the air passa ges, and coming indirect contact with the disease neutralizes the tubercular matter, allays the cough causes a free and easy expectoration, heals the longs, purifies the blood, imparts renewed vitality to the nervous system, giving that energy so indispensable for the restoration of the health. To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unalloved pleasure. It is as much under the control of medical treatment as any other formidable disease: 90 out of 100 cases can be cured in the 1st stages, and 50 pr et. in the 2nd: but in the 3rd

stage it is impossible to save more than 5 pr ct. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, INHALATION affords relief to the suffering attending this fearful scourge, which Paid Fire do. 39,737 89 annually destroys 95,000 persons in the U.S. alone; Expenses. Salaries and and a correct calculation shows that of the present population of the earth, 80,000,000 arg destined to fill the consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave the beautiful, graceful and gifted. By the help of the Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy care in Consumption. The firsteause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admis-sion of air into the air cells, which causes a weakened vitality thro' the entiro system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling the remedies. Thus, Inhalation is a local remedy, nevertheless "it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated without the slightest pain; inhaling the ordinary barning gas will destroy life in a few hours. The inhalation of ammonia will arouse the sys-

tem when fainting or apparently dead. The od. or of many of the medicines is perceptible in the and Stock, from \$100 to \$5,000, at the Lowest skin a few minutes after being inhaled, and may be immediately detected in the blood. A convin-, sing proof of the constitutional effects of inhala tion, is the fact that sickness is always produced by breathing foul air-is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest result! During 18 years practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable enres; even after the sufferers had been pronounced in the last stages, which fully satisfies, me that Consumption is no longer a fatal disease. My treat ment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tobereles, etc., enables me to distinguish, readily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain Pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the

entire system. Medicines with full directions sent to any part of the United States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my see, ing the patient again. Above we present you with a likeness of Dr MORSE- the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in travelling, having -spent 3 years among the Indians of our Western country,-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discases arise from IMPURITY OF THE BLOOD-that our strength, health and life depend upon this fluid. When the various passages become clogged,

and do not act in perfect harmony with the different functions of the budy, the blood loses its acion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and it nature is not assisted in throwing off the stagnant humors, the blaud will become stagnant and cease to act, and thus out light of life be forever blown out. - How importaut is it then to keep the passages of the body free and open. And how plesenut to us to be a ble to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these. Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the hungs by copious spitting. The third is a Diuretic, which gives ease and/double strength to the kidneys; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the arinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartie, and accompanies the other properties This Company Insures Buildings, Merchandize, of the Pills while engaged in purifying the blood the coarser particles of impurity which cannot pass by the other outlets, are thus taken upard onveyed off in great quaptities by the bowels. From the above, it is shown that Dr. Morse's ndian Root Pills not only enter the stomach. but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy;consequently all sickness and pain is driven from the system, for they cannot remain when the bo dy becomes so pure and clear. The reason why poeple are so distressed when sick, and so many lie, is because they do not get a medicine that will pass to the afficted parts, and which will o

pen the natural passages for the disease to be cast out, hence, a small quantity of food and oth-er matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermenta-tion, constantly mixing with the blood, which throws the corrupted matter through every veir and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to health and happiness.

Yes' thousands who have been racked or tor mented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the

silent grave, now stand ready to testify that they

The indicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During 20 years of practice I have rescued from the jaws of Death many thon sands, who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who place themselves under my care, a perfect and most speedy cure. Secret dis cases are the greatest enemies to health, as they are the first cause of Consamption, Scrofala, and many other diseases, and ought to be a terror to the human family. 'As a permanent cure is saarcely ever effected, a majority of the cuses fal ling into the hands of incompetent persons, who not only fail to cure, the discuss, but ruin the constitution, filling the system with mercury, which, with the discuse, hastens the sufferer into a rapid consump ion.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Uleers, E-uptions, and other af fections of the skin, Eves, Throat-and Lungs, on tailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enc my to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life causes mental derangement, prevents the proper developement of the system, disqualifies for ma riage, society, business, and all earthly happiness and leaves the sufferer wrecked in body and mind predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self A buse that a permanent and spoody Cure can be effected, and with the aban- With a great variety of other Staple and donment of ruinous practices my patients can be restored to robust, vigorous health.
