Above we present you with a likeness of D mORSE-the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has epect the greater part of his life in travelling, having visited Europe, Asia, Africa and South America -spent 3 years among the Indians of our Western country,-it was in this way that the Indian-Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD-that our strength, health and life depend upon this fluid.

When the various passages become clogged and do not act in perfect harmony with the diff-erent functions of the body, the blood loses its acion, becomes thick, corrupted and diseased:thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood will become stagnant and cease to act, and thus on light of life be forever blown out. How importaut is it then to keep the passages of the body free and open. And now pleseaut to us to be sble to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a soothing manner, performs its daty by throw ing off phiegm, and other humors from the lungs by copious spitting. The third is a Diureticwhich gives ease and double strength to the kidpevs; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the primary or sater passage, and which could not have been discharged in any other way. The fourth is a -8523,057 07 Cathartie, and accompanies the other properties This Company Insures Buildings, Merchandize, of the Pills while engaged in purifying the blood;

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, The Board of Directors have this day declared but become united with the blood, for they find way to every part, and completely cleanse the aystem from all impurity, and the life of the body which is the blood, becomes perfectly healthy;consequently all sickness and pain is driven from the system, for they cannot remain when the bo dy becomes so pure and clear. The reason who poeple are so distressed when sick, andso many die, is because they do not get a medicine that will pass to the affected parts, and which will open the natural passages for the disease to b cast out, hence, a small quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, whiel throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring militions of the sick to health and happiness.— Yes thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had t not been for this great and wonderful mediine, Morse's Indian Root Pills. After 1 or 2 doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the dasease, which is the blood Therefore, at will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease-the deadly enemy-will take its flight, and the flush o' youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your

days. Beware of counterfeits in vellow

AYER'S CHERRY PECTORAL FOR THE BAPTO CURE OF Coughs, Colds, Hoarskness, Inplu-

CIPIENT CONSUMPTION. and for the relief of consumptive patients in advanced stagre of the disease.

We need not speak to the public of its virtnes. Throughout every lown, and almost every hamlet of the American States, its wonderful rurse of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantes; and safest renedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PETCHAL aves more lives by the consumptions it prevents than those it cures. Keep it by you, and erne your colds while they are curable, nor necesser that fastened on the vitals, eats your life away. All know the direation fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnals for their cure.

In all ages it has been the discontinuance of the same. great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave the beautiful, graceful and gifted. By the help of the Su-preme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality thro' the entire system. Then surely it is more rational to expect greater good from nedicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling the remedies. Thus, Inhalition is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amoutated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours. Secret dis eases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula and many other diseases, and ought to be a terror to the human family. As a permanent cure is scarcely ever effec ed, a majority of the cases fal ling into the hands of incompetent persons, who not only fail to cure, the discuses, but rain the constitution, filling the system with mercury,

which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions. born with feeble constitutions, and the current of life corrupted by a virus which betrays itself it Scrofula, Tetter, Ulcers, Eruptions, and other af fections of the akin, Eyes, Throat and Lungs, en tailing upon them a brief existence of suffering and consigning them to an early grave.
SELP ABUSE is another formidable en

my to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disquaities for mar riage, society, business, and all earthly happiness tached to the Express Freight Trains, leaving- and leaves the sufferer wrecked in body and mind. 6 00 a m predisposed to consumption and a train-of evil more to be dreaded than death itself. Sin: I have used your Pills in my general and inspital
practice ever since you made them, and cannot hesitate to
say they are the lest cathartic we employ. Their regulating action on the liver is quick and deckied, consequently they are an admirable remedy for derangements of that
organ. Indeed, I have seldom found a case of bilious discase so obstitute that it did not readily yield to them.

Dz. Atta: Your Pills are the perfection of neelcine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be decored at great expense, but go no better. She then commenced taking your Pills, which soon cured ber, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two does of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

em when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convinzing proof of the constitutional effects of inhala tion, is the fact that sickness is always produced by breathing foul air-is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest result? During 18 years ractice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treat ment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tuercles, etc., enables me to distinguish, readily, the various forms of disease that simulate Conumption, and apply the proper remedies, rarely sing mistaken even it a single case. This famiarity, in connection with certain Pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to
