Above we present you with a likeness of Dr. MORSE-the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in travelling, having ern country,-it was in this way that the Indian Total Receipts, - - - \$400,185 68 Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD-that our strength, health and life depend upon this fluid. When the various passages become clogged, and do not act in perfect harmony with the diff-erent functions of the body, the blood loses its acion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood will become stagnant and cease to net, and thus our light of life be forever blown out. How importaut is it then to keep the passages of the body cost prices free and open. And how pleseant to us to be able to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the lungs by copious spitting. The third is a Diarctic, which gives case and double strength to the kidneys; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountifully by the prinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy;onsequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. The reason why poeple are so distressed when sick, andso many die, is because they do not get a medicine that will pass to the affected parts, and which will open the natural passages for the disease to be cast out, hence, a small quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery; until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring miliions of the sick to health and happiness.— Yes thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After 1 or 2 do. ses had been taken, they were asto absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness. pain and anguish, but they at once go to work a the foundation of the dasease, which is the blood Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease-the deadly enemy-will take its flight, and the flush of youth and beauty will again retain, and the prospect of a long and happy life will cherish and brighten your days. Beware of counterfeits in yellow wrappers—all genuine are in Blue, with the signature of A. J. White &Co., on each box.

Doctor Aver. Lowell: I feel it a duty and a pleasure to inform you what your CERREY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Ayer's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable process are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentably man the second of all own. They we want and pleasant to take, but powerful to cure. Their panetrating properties stimulate the vital scrivities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate slaggish or disne-dered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do tone with strength to the whole system. Not only do
they cure the every-day complaints of every body, but
also formidable and dangerous diseases that have baffled
the best of human skill. While they produce powerful
effects, they are at the same time, in diminished doses, the
affect and best physic that can be suployed for children.
Being sugar-coated, they are pleasant to take; and being
purely vegetable, are free from any risk of harm. Cures
have been made which surpass belief were they not substantiated by men of such explicit controls and character. stantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to corticiergymen and paymenans have sent their naises to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, undering follow-men.

The Agent below named is pleased to furnish gratis my

American Almanec, containing directions for their use and certificates of their cures, of the following complaints:— Contiveness. Bilious Complaints, Rheumatieus, Dropsy, Heartburn, Headache arising from a foul Stamach, Nan-sea. Indigretion, Morbid Inaction of the Bowels and Pain sea. Indigretion, Morbid I saction of the Bowels and Pain arising therefor-as. Flatulency, Loss of Appetits, all Ulcocous and Cutaneous Discesses which require an evacuant Medicine, Scrofula or Kingle Evil. They aim, by purifying the lided and athendating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Bilindness, Neuralgia and Nerrous Irrital-litty, Derangements of the Liver and Kidneys, Gont, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for ATER's Pills, and take nothing elec. No other they can give you compares with this in its intrinsic value by curative and they should have it.

Important Discovery. CONSUMPTION, and all diseases of the

LUNGS and THROAT are positively curable he INHALATION, which conveys the remedies to the cavities in the lungs through the air pusses ges, and coming in direct contact with the disease neutralizes the tubercular matter, allays the cough causes a free and easy expectoration, nears the langs, purifies the blood, imparts renewed vitality to the nervous system, giving that energy so indispensible for the restoration of the health.

To be able to state confidently that Consumption:

To be able to state confidently that Consumption: is curable by Inhalation, is to me a source of un- to the Epizons, Montrose, Sunq'a. Co., Pa. illoyed pleasure. It is as much under the control of medical treatment as any other formidable disease; 90 out of 100 cases can be cured in the 1st | One square (12 lines or less) 1 or 3 weeks, \$1.00 stages, and 50 pr et. in the 2nd: but in the 3rd | Each subsequent insertion, stage it is impossible to save more than 5 pr ct., One square three months, for the lungs are so cut up by the disease as to One square six months, bid defiance to medical skill. Even, however, in Business Cards, four lines or less, the last stages, in HALATION affords relief to One-fourth column, one year, the suffering attending this fearful scourge, which | One-half annually destroys 95,000 persons in the U.S alone | One column. and a correct calculation shows that of the present

tal as Consumption. In all ages it has been the discontinuance of the same. great enemy of life, for it spares neither age nor ex, but sweeps off alike the brave the beautiful, graceful and gifted. By the help of the Su-prome Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption.
The first cause of tubercles is from impure blood and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality thro' the entire system. Then surey it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling the remedies. Thus. Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely dostroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning elry, Perfumery, &c.—And Agent for all the gas will destroy life in a few hours.

The inhalation of ammonia will arouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhala ion, is the fact that sickness is always produced by breathing foul air-is not this positive evidence hat proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest result? During 18 years practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treat nent of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tupercles, etc., enables me to distinguish, rendily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely sing mistaken even it a single case. This famiarity, in connection with certain Pathological? and micro-copic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to t renewed vitality, giving energy and tone to the

ntire system. Medicines with full directions sent to any part of the United States and Canadas, by patients communicating their symytoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my see. The mdicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During 20 years of practice have rescued from the jaws of Death many thou unds, who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who place themselves under my care, a perfect and most speedy cure. Secret dis eases are the greatest enemies to health, as they are the first cause of Consumption Scrofula and many other diseases, and ought to be a terror to the human family. As a permanent cure is scarcely ever effec ed, a majority of the cases fal ing into the hands of incompetent persons, who not only fail to cure, the diseases, but ruin the

constitution, filling the system with mercury, which, with the disease, hastens the sufferer into rapid consump ion. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself, it Scrofula, Tetter, Ulcers, Eruptions, and other af fections of the skin, Eyes, Throat and Lungs, en tailing upon them a brief existence of suffering and consigning them to an early grave. SELF ABUSE is another formidable enemy to health, for nothing else in the dread cataogue of human diseases causes so destructives eling public and others with all the attentions
