FOOL TURE A.

Above we present you with a likeness of D ORSE⁴ the inventor of MORSE'S INDIAN MORSE's the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spert the greater part of his life in travelling having visited Europe, Asid, Africa and South America -spent's years among the Indians of our West-ern country, it was in this way that the Indian Root Pills were first discovered. Dr. Merse was the first man to establish the fact that all disca-tes arise from furprary of the successful one ses arise from IMPURITY OF THE BLOOD that our strength, health and life depend upon this sluids When the various passages become clogged, and do not act in perfect harmony with the diff-erent functions of the body, the blood loses its cion, becomes thick, corrupted and diseased:thus causing pains sickness and distress of overy name; our strength is exhausted, we are depriv ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood-will become singnant and cease to act, and thus our light of life to forever blown out. How impor-tant is it then to keep the passages of the body free and open. And how pleseant to us to be able to put a medicine in your roach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer, portions of corruption within. The second which is a plant is an Expectorant, that opens which is a platt is an *Expectation* in the oppus and unclogs the passage to the lings, and thus, in a soothing manner, performs its duty by throw ing off phlegin, and other humors from the lungs by copious spitting. The shird is a Diarette, which gives ease and double strength to the kid-ners this appoint of the days days have a point. news; this encouraged, they draw large amounts of impurities from the blood, which is then thrown out, bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth'is as Unthartie, and accompanies the other properties of the Pills while engaged in purifying the plood the coarser particles of impurity which cannot ass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's Indian Root Fills not only enter the stomach but become united with the blood, for they, find way to avery part, and completely gleanse the system from all inpurity, and the life of the body which is the blood, becomes perfectly healthy;-consequently all sickness and pair is driven from

he system, for they cannot remain when the bo dy becomes so pure and clear. The reason why poeple are so distressed when sick, andso many die, is because they do not get a medicine that will pass to the afficted parts and which will open the natural passages for the disease to be pen the natural passages for the disease to be east gat, hence a small quantity offood and other a matter in the east and intest times are literally overflowing with the corrupted mass; this fudergoing disagreeable fermenta-tion, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, ngtil life is taken from the body by disease. Dri Morse's **PILLS** have added to themselves victory upon victory, by restoring millions of the sick to health and happiness.----Yes' thousands who have been racked or tor-nented with sickness, phin and anguish, and phose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as itswere, within a step of the wilent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medic-ine, Morse's Indian Root Pills. After 1 or 2 do.

Fills. Most of the pills in market contain Mercury, which, al-though a valuable remedy in skillut lands, is dangerous in a public pill, from the dreadful consequences that fre-quently follow, its increations user. Three contain no mer-cury or minoral substance whatever.

AYER'S CHERRY PECTORAL FOR THE RAPID CURE OF

COLGHS, COLDS, HOARSENESS, INFLU-ENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN-CIPLENT CONSUMPTION,

and for the relief of considuptive patients in advance stages of the disease.

and for the rentr of communitive patients in advanced stages of the disease. We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the Ansigican States, its woulgerful cures of pulmonary com-plaints have made it already known. Kay, fex-are the limities in any civilized country on this continent without "some personal experience of its effects; and fever yet the communities any where which hars not among them gerous diseases of the throat and lungs. While it is the most powerful antidotekyet known to man for the formi-dable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remody that can be em-ployed for infants and young persons. Parents should have it in store against the insidious energy that stells upon them unprepared. We have abundang grounds to believe the Curkany Pactoras asses more lives by the con-sumptions it prevents than these it cures. Keep it by you, and curer your; colds while they are curable, nor neg-eauther that, fastened on the vitals, cats your like averable canker that, fastened on the vitals, cats your life away. All know the draaful fatality of lung disorders, and ag they know too like virines of this remedy, we need not do more than to assure them it is still made the beat it can be. We spare no cost, no care, no toll to produce it the most perfect previble, and thus afford those who rely on it the best agent which our skill carf furnish for their cure. When a CURE is Guaranteed in all stages of SEGRET DISEASE, Self Aduse, Nervous usual good manner. Debility. Strictures, Gleets, Gravel. Diabetes, Montrose May 13th, 1857. 21 tf Diseases of the -Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and - 9 PREPARED BY .DR. J. C. AYER, Ancles. Diseases of the Lungs, Throat, Nose and Practical and Analytical Chemist, Lowell, Mass. AND SOLD BY

Important Discovery-CONSUMPTION, and all diseases of the LUNGS and THROAT are positively curable by INHALATION, which conveys the remedies

by INHALATION, which conveys the remedies to the cavities in the lungs through the air passa ges, and coming in direct contact with the disease neutralizes the user ware matter, allays the cough causes a free and easy expectoration, heals, the lange, purifies the blood, imparts renewed vitality to the nervous system, giving that energy so indispensable for the restoration of the health. To be able to state confidently that Consumptionf is acceltable to state confidently that consumptionf. is curable by Inhulation, is to me a source of un-alloyed pleasure. It is as much under the control

of medical treatment as any other formidable dis-ease; 90 out of 100 cases can be cured in the 1st atages, and 50 pr ct. in the 2nd: but in the 3rd stages, and 50 pr ct. in the 2nd: but in the 3rd stage with a stage with a save more than 5 pr ct., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages JNHALATION affords relief to the last stages JNHALATION affords relief to one-balf thd suffering attending this fearful scourge, which One-half annually destroys 95,000 persons in the U.S. alone One column

and a correct calculation shows that of the present population of the earth," 80,000,000 are destined

population of the earth," 80,000,000 are destined to fill the consumptive's graves. Traily the quiver of death has no arrow, so fa-tal as Communiton. In all ages it has been the great enemy of life, for it spares nother age nor sex, but sweeps off aliko the brave the beaut; ful, gradefal' and gifted. By the help of the Su-preme Being from Thom cometh every good and perfort with I am enabled to offer to the afflicted erfoct gift, I am enabled to offer to the afflicted a permanent and speed, cure in Consumption. The first cause of tubercles is from impure blood and the funddiate effect produced by their deposition in the lungs is to prevent the free admis-sion of air into the sircells, which causes a weak-

ened Vitality thro', the entire system. Then sure-ly it is more rational to expect greater good from modificities entering the cavities of the lange than from those administered through the stomach the patient will always find the lungs free and

the breathing easy, after inhaling the remedies. Thus, Inhilation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful, and direct influence of this mode of administration, chloro-

form inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated without the slightest fain, inhaling the dainary burning gas will destroy life in a few hours. The inhalation of ammonia will arouse the sys-

tem when fainfing or apparently dend. The od-or of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convinsing proof of the constitutional effects of inhahation, is the fact that sickness is always produced

by breathing foul air-is not this positive evidence hat proper remedies, carefully propared and ju dictously administered through the lungs should produce the happiest-result? During 18 years practice, many thousands suffering from diseases of the lungs and threat, have been under my care and I have effected many remarkable curves, even after the sufferers had been pronounced in the load stages, which fully satisfies me that Con-sumption is no longer a fata disease. My treat nent of Consumption is original, and founded n long experience and a thorough investigation My perfect acquaintance with the nature of tn-

bereles, etc., enables me to distinguish, readily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even it a single case. This fam-i larity, in connection with certain Pathological and microscopic discoveries, enables me to relieve, the lungs from the effects of contracted chests, enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the

Medicines with full directions sent to any part of the United States and Canadas, by patients communicating their symytoms by letter. But the cure would be more certain if the patient. should pay me a visit, which would give me an pportunity to examine the lungs and enable me prescribe with much greater certainty, and en the cure could be effected without my see. ng the patient again.
