HARD SHELL SERMON.-No. 3. My Beleved Breethering: I am an unlart Hard Shell Baptist preacher of whom you've THE N. YORK ILLUSTRATED WEEKLY no doubt heem before and now appear here to expound the Scripture and pint out the parrow way which leads from a vain world to the streets of the New Juroesalum, and my text which I shall chuse for the occasion is in the lids of the Bible, somewhere between the week. second Chronicalls and the last chapter of Timothy Titus, and when you find it you will

find it in these words: nd it in these words:

"And they shall grown a file and flee into the mountains of Hepzidam, where the lion roareth and the wang-doodle mourneth for its

Now, my breethreing, as I have before told you, I am an uneddicated man, and know nothing about grammer and collidge bifalooting but I'm a plain unlarnt preacher of the Gospil what's been forcordained and called to expound the Scripters to a dyin' world, and prepare a preverse generation for the day of wrath, for "they shall goaw a file and flee into the mountain of Hepzidam, where the lion 25 roareth and the wang-doodle-mourneth for its

My behived breethering, the text says "the My believed breethering, the text says "the 200" Watches 10 to 20 shall gnaw a file." It don't say may but they 500 Gold Vest and Goard and shall. And now there's more nor one kind of file. There's the hand saw file, the rat tail file, single file, double file and profile; but the kind of file spoken of here isn't one of them kind neither, because it's figger of speech, my breetheren, and means goin' it alone and gettin' ukered; for "they shall gnaw a file and flee into the mountains of Hepzidam. where the lion roareth and the wang-doodle mourneth for its first-born,"

And now there be some here with fine close on their backs, brass rings on thar fingers and lard on thar har, what goes it while they're young; and that be brothers here what, as long as hard constitutions and forty cent whiskey lasts goes it blind; and thar be sisters here what when they get about sixteen vears old, cut their tiller ropes and goes. with a rush; but I say, my dear breathering, take case you don't find when Gabriel plays his last trump, that you're went it alone and got ukered; for "they shall gnaw a file and flee into the mountains of Hepzidam, with the lion roareth and the wang doodle mourneth for its first-born."

And, my breethering, there is more dams besides Hepzidam. That's Rotterdam, Had dam, Amsterdam, mill dam and don't care-adam-the last of which, my dear breathreng, is the worst of all, and reminds me of a cir-cumstance I oncet knew in the State of Illenov. There was a man what built bim a mill on the east fork of the Ager creek, and it was a good mill and ground a eight of grain, but the man who built it was a miserable sinner and never give anything to the church; and, my breethering, one night that came a dreadful storm of wind and rain, and the foundations of the great deep was broken up, and the water rushed down and swent that man's mill dam into kingdom come, and lo, behold! in the morning when he got up he found that he was not worth a dam. Now, my young breethering, when storms of temptation overtake you, take care you don't fall from graceand become like that man's mill-not worth a dam; for "they shall gnaw a. file and flee into the mountains of Hepzidam, where the lion roareth and the wang-doodle mourneth for its first born."

Where the lion rosreth and the wangdooble mourneth for its first-born.". This part of the text, my breethering, is another figger of speech, and isn't to be taken as says, it dosen't mean the howlin' wilderness, breethering, New Yorleans, the mother of Paharlots and hard lots-whar corn is worth one day and narry red the next whar nigger are as thick as black bugs in spiled bacon ham, and gamblers, thieves and pickpockets go skiting all around the streets like weasels in a barn yard—where they have cream colored horses, gilded carriages, marble saloons with brandy and sugar in them-whar honest men are scarcer than hen's teeth and a strange woman oncet tuk in your be luved preacher and bamboozeled him out

My breethering, I'm captain of that flat boat you see ried up thar, and I've got aboard apples, and as good as Monongaley whiskey we can offer better inducements to dealers and as ever you drank; and I'm mighty apt to get a big price for it all. But what, on my breethering, would it all be worth to me, if I hadn't religion? There's nothing like religion, my breethering. It's better nor silver.

Benevolent Anstitution, established by special cudoicment for the relief of the sick and dis-tressed afflicted with Virulent Epidemic diseases. TO ALL PERSONS afflicted with Sexual Diseases, such as Spermatorrhea, Seminal Veakness, Impotence, Gonorrhea, Gleet, Syphist, the Vice of Onanism, or self abuse, &c., &c.

The Howard Association, in view of the wful destruction of human life, caused by Sexudiseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon; as a CHARITABLE ACT Worthy of their name, to open a Dispensary for the treat-ment of this class of diseases, in all their forms, and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and n cases of extreme poverty, to furnish medicines free of charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most improved modern treatment.

The Directors on a review of the past, feel issured that their labors in this sphere of benevo lent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised

BOVE we present alikeness of Dr. MORSE - the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in travelling, having visited Europe, Asia, Africa and South America -spent 3 years among the Indians of our Westra country,-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from impusity of the blood-that our strength, health and life depend upon this fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its cion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood will ecome stagnant and cease to act, and thus our light of life be forever blown out. How impor-tant is it then to keep the passages of the body-free and open. And how pleseant to us to be a-ble to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and uncloss the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing, off phlegm, and other humors from the lungs by copious spitting. The third is a Diaretic,—which gives ease and double strength to the kidners; the separaged the description of the second services news; thus encouraged, they draw large amounts of impurities from the blood, which is then thrown out bountfully, by the prinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot press by the other outlets, are thus taken up and conveyed off in exert quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy;— consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. The reason why pdeple are so distressed when sick, andso many die, is because they do not get a medicine that will pass to the afficted parts, and which will oppose the natural passages for the disease to be cast out, hence, a small quantity of food and other matter is lodged, and the stomesh and intestines are Hierally overflowing with the corrupted mass, thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring missions of the sick to health and happiness.— Yes' thousands who have been racked or tormented with sickness, pays and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine Morse's Indian Root Pills, After 1 or 2 doses had been taken, they were astonished, and absolutely surprised, in witnessing their charmingleffects. Not only do they give immediate east and strength, and take away all sickness, pair and anguish, but they at once go to work at he foundation of the dusease, which is the blood Therefore, it will be shown, especially by those

While, it is the most powerful antificte yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants, and young persons. Perents should have it in store against the instillous enemy that steals quantitien unprepared. We have abundant grounds to believe the Currant Percroaat saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can master the inexerable spanker, that, Costened on the vitals, eats your life away.

Parliker, that, tastened on the vitals, eats your life away, DAll know the dresulful fataity of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toll to produce it the most perfect posseble, and-thus afford those who rely on, it the best agent which our skill can furnush for their cure. PREPARED BY DR. J. C. MONTROSE, APRIL, 30th 1857. WOLFS Aromatic Schiedam Schnapps, at TURRELL'S Important Discovery.

CONSUMPTION, and all diseases of the LUNGS & THROAT are positively curable by INHALATION, which conveys the remedies to the cavities in the lungs through the air passa ges, and coming in direct contact with the disease entralizes the tubercular matter, allays the cough causes a free and easy expectoration, heals the langs purifies the blood imports renewed vitality the hervous system, giving that energy so indispensable for the restoration of the health. To be able to state confidently that Consumption: s curable by Inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disase; 90 out of 100 cases can be cured in the 1st stages, and 50 prot. in the 2nd: but in the 3rd stage it is impossible to save more than 5 prot., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even however, in the last stages, INHALATION affords relief to the suffering attending this fearful scoorge; which annually destroys 95,000 persons in the U.S. alone and a correct calculation shows that of the present opulation of the karth, 80,000,000 are destined

o fill the consumptive's graves.

Truly the quiver of death has no arrow so fa tal as Consumption. In all ages is has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave the beautiful, graceful and gifted. By the help of the Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality thro' the entire system. Then surely it is more rational to expect greater good from medicines cutering the cavities of the lungs than from those administered through the atomach; the patient will always find the lungs free and the breathing easy after inhaling the remedies Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will arouse the sys

tem when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhala tion, is the fact that sickness is always produced by breathing foul air-is not this positive evidence that proper remedies carefully prepared and ju-dictionally administered through the langs should produce the happing result? During 18 years practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treat ment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubereles, etc., enables me to distinguish, readily, the various forms of disease that simulate Con-sumption, and apply the proper remedies, rarely eing mistrken even in a single case. This famliarity, in connection with cortain Pathological and microscopic discoveries, embles me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to renewed vitality, giving energy and tone to the

entire system.

Medicines with full directions sent to any part of the United States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an pportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my see. ng the patient again. The micines are pleasant without odor, causing no sickness, and free from mercury or balsam. During 20 years of practice I have rescued from the jaws of Death many thon sands, who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who place themselves under my care, a perfect and most speedy care. Secret dis eases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and ought to be a terror to the human family. As a permanent cure is scarcely ever effec ed, a majority of the cuses fal ling into the hands of incompetent persons, who not only fail to cure, the diseases, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into

a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions, and other af fections of the skin, Eyes, Thront and Lungs, en tailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable ene

my to health, for nothing else in the dread cata-logue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely gravo. It destroys the Nervous sys-Connecting with the Emigrant Train west, on the N. Y. & E. Rail Road.
