partment and that alone for the consecration of its energies, you will compress the entire range of intellectual and moral rision. You imprison man in the valley, little dreaming of the magnificent prospect from the mountain tops, and whether his "name be Norval" or his father's shield," and that the sun was made forty columns of choice reading matter each to shine for him alone.

I do not mean here by Charity that species of infidel philosophy known as Modern Platonisin, which seaches "that the great principles of all philosophical and religious truth ere to be found equality in all sects, differing from \$1 to \$500,00 in Gold! only in the mode of expressing them"—a principle which opens the flood gates of error upon all that is pure and holy, and baptizes all heathenish systems in the name of God but a charity which is tolerant, which suffereth long and is kind; "which envieth not, vannish not itself, is not puffed up, doth not behave itself unseemly, seeketh not her own, is not easily provoked, thinketh no evil; reing Cased Watches - 100 Each. joiceth not in iniquity but rejoiceth in the 15 truth; beareth all things, believeth all things, 25 hopeth all things, endureth all things.

One of the great advantages of a college

ducation, to a young man, to say nothing of the discipline of mind and habits of study is

the discipline of mind and habits of study is

the fact that he is the property of the discipline of mind and habits of study is

Shape Ruttthe fact that he is thrown into contact with young men of his own age from all parts of the land, of every variety of political and so-cial views and opinions, and learns to appreciate something of the hidden influences and under currents which form the distinct feaunder currents which form the distinct fea press, post paid.

tures of character in different parts of the land Address BECKET & COMPANY, PUBLISHERS, and the world. The Georgia student will be surprised that the Vermonter is not that impersonation of foxy cunning, blustering impudence and uncouthness of manners, which he had pictured to himself, and there will be equally agreeable surprise in the other party. There is thus incidental to the very acquis

liberal spirit. Lord Bacon says, "Custom is most perfect when it beginneth in young years; this we call education, which is, in effect, but an early custom." And the same author remarks in another connection, " Certainly it is heaven upon earth to have a man's mind move in Charity, rest in Providence and turn upon the poles of Truth."

There is need of greater charits in our day. Conflicting opinions bring men into frequent opposition. Elements are brought into comof character—Charity.

There is something sad in the contempla-

without any restraining hand, dashing on at assured that their labors in this sphere of benevofall speed to certain destruction.; but there lent effort, have been of great benefit to the sion, in the condition of a great and good resolved to devote themselves, with renewed man, enjoying universal, confidence and zeal, to this very important but much despised crowned with earth's laurels, suddenly swereinto the gulf of disgrace and wretchedness. he fall." Such histories are mournfully suggestive, and we inquire, why his sad consum-

It is said that when Peter the Great, in vi- Pa. olation of one of his own laws, had inflicted a upon his gardner, which resulted in his death, he exclaimed: "Alas, I have civilized my own subjects, I have conquered other nations, yet I have not been able to civilize of conquer myself !"

What a lesson to the young, especially to of the fiercest battle. And there is a selfcertain triumph of the soul's worst enemies. I need not insist upon a truth so evident. -but remark in conclusion, that one of the most important characteristics of the spirit of a student, is a reference to the end of life.

every creative and Providential act of God is referrible, and should there not be a final cause to which we may refer all human offort and human action? A final cause is an end, nocturnal emissions, genital and nervous debility, every creative and Providential act of God is referrible, and should there not be a final make their appeal from the regrets and disappointments of the past. History holds out The important fact that the many alarming the spirit, ope ating as a potent cause in demen, keeping the meedle always in one direction, so that by observing the man, you may know at once for what he is living. One of the seven wise men of Greece se lected for his motio, " Respice finem" - Consider the end-think of the end. Think as

you live and suffer and enjoy as you float in sorrow arrays you in the mautle of the sepulchre; when your highest aspirations quiver and reverse their flight like wounded birdswhen you seem to have strayed from life's GOOD PEOPLE ALL suppy fields, and like miners to be working in the dark; in five. be your mind blank and dreary as a deserted house, or busy and confused as a tumultnous throng, think of the end! It is something certain, something real. You know that it will come, though you know not when, nor how. You know that it is that for which you are studying, striving, waiting. You must be efficient,

A BOVE we present a likeness of Dr. MORSE -the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spert the greater part of his life in travelling, having visited Europe, Asia, Africa and South America - spant 3 years among the Indians of our Westernicountry, it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discases arise from IMPURITY OF THE BLOOD-that our strength, health and life depend upon this fluid. When the various passages become clogged, and do not act in perfect harmony with the diff-

erent functions of the body, the blood loses its cion, becomes thick, corrupted and diseased;thus causing pains sickness and distress of every name; our strength is exhausted, we are depriv-ed of our health, and if nature is not assisted in throwing off the stagnant humors, the blood will become stagmant and cease to act, and thus our light of life be forever blown ont. How importand is it then to keep the passages of the body free and open. And how plescant to us to be able to put a medicine in your reach, viz., Morse's Indian Root Pills, made from plants and roots that grow around the mountain cliffs in Nature's garden, for the health and comfort of diseased man. One of the roots from which these Pills are made is a Sudornic, which opens the pores of the skin, and assists Nature in throwing off the finer portions of corruption within. The second which is a plant is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a soothing manner, performs its duty by throw ing off phlegm, and other humors from the lungs by copious spitting. The third is a Diaretic, which gives case and double strength to the kidners; thus encouraged they draw large amounts of impurities from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.
From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, out become united with the blood, for they find way to every part, and completely cleanse the system from all impurity, and the life of the body which is the blood, becomes perfectly healthy;consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. The reason why poeple are so distressed when sick, and so many died is because they do not get a medicine that will pass to the affected parts, and which will openithe natural passages for the disease to be case out, hence, a small quantity of food and oth er matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass: thus undergoing disagreeable termenta-constantly mixing with the blood, which throws the corrupted matter through every vein and lartery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to health and happiness.— Yes thousands who have been racked or tormended with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After 1 or 2 doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength and take away all sickness.

AYER'S CHERRY PECTORAL. FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BORTSENESS.

Bark. Jun. Mass. 20th Dec. 1856.
Dr. J. C. A. J. V. To not hesitate to say the best remedy: have ever found for Coughs, Hourseness, Ind. enra, and the roncoultant symptoms of a C. Jd. is your Cherker Pectonal. Its constant use in my practice and my family for the last ten years has shown it to possess sa, reject virtues for the treatment of those complaints. KBEN KNIGHT, H. D.

A. B. MORTLEY, Eq., of Urica, N. Y., writes: "I have need your Percusal myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should soon to purpose ever put out. With a bad cold I should soon take any other remedy."

Croup, Whooping Cough, Influenza.

Croup, Whooping Cough, Influenza.
Spainarum, Miss., Feb. 7, 1856.
BROTHER AFES: I will cheerfully certify your Pecrosal.
Is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

IIIRAM CONKLIN, M. D.

IIIRAM CONKLIN, M. D.

AMOS LEE, Esq., Mowrenst, I.a., writes, 3d Jan., 1856; "I had a tedious Inducenza, which confined me in doors six weeks; took many medicines without relief; finally tried yohr Pacroaat by the advice of our clerkyman. The first does relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedice, as the poor man's Iriend."

Asthma or Phthisic, and Bronchitis.

Asthma or Phthisic, and Bronchitis.

Sir: Your Cerear, Pervaal is performing marrellous cured in this section. It has relieved several from afarming symptoms of consumption, and is now curing a man who has tabored under an affection of the lungs for the last furty years.

HENRY L. PAIRER, Merchant.

A. A. PAMERY, M. D., Almox, Mornor Co., Iowa, writes, Sept. 6, 1835: "During my practice of many years I have found nothing equal to your Chrear Perroaal for giving rase and relief to consumptive, patients, or curing such as are curable." such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its

wincing proof of the wirtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one memedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Crierry Parcurat; affords relief and comfort.

Asyon Houss, Ngw York City, Merch 5, 1856
Doctor Aver, Lowell: I feel it a duty and a pleasure to inform you what your Cherry Protect has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We blees his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is freetfrom her could, and calle herself well.

Yours with gratitude and regard,

Yours with gratitude and regard, ORLANDO SHELBY, OF SHELBYVILLE Unsumptives, do not despair till you have tried AYER'S CREARY l'ECTRALE. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.— I'madelphia Ledger.

Ayer's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win un-precedentedly upon the extrem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs purify the blood, and expel disease. They purge out the foul humors which breed and grow distances are suggisted or disorbreed and grow distances are suggest or disor-uered organs into their natural action, and impart healthy orred and grow distances of the results of the control of the cont ers have sent mo the assurance of their conviction that my Preparations contribute immeasely to the relief of my afflicted, suffering fellow-men

Important Discovery.

CONSUMPTION, and all discuses of the LUNGS & THROAT are positively curable by INHALATION, which conveys the remedies to the cavities in the lungs through the air passa ges, and coming in direct contact with the disease neutralizes the tubercular matter, allays the cough causes a free and easy expectoration, heals the langs, purifies the blood, imports renewed vitality to the nervous system, giving that energy so indispensable for the restoration of the health.

To be able to state confidently that Consumption: is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of modical treatment as any other formidable dis ease; 90 out of 100 cases can be cured in the 1st stages, and 50 pr ct. in the 2nd: but in the 3rd stage it is impossible to save more than 5 pr ct. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, INHALATION affords relief to

Truly the quiver of death has no arrow so fa-tal as Consumption. In all ages it has been the great enemy of life, for it spaces neither age nor the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will arouse the avs tem when fainting or apparently dead. The od-or of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may entire system.

Medicines with full directions sent to any part

Spings from neglect of Nature's laws. SUFFER NOT

Ancles, Discases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vita's Dance, and all diseases arising from a derangement of the Sexual Organs; Such as Nervous Trembling, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated how ever long standing or obstinate the case, RECOV-ERY is CERTAIN, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The indicines are pleasant without odor; causing no sickness, and free from mercury or balsam. During 20 years of practice I have rescued from the jaws of Death many thou sands, who in the last stages of the above men-tioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who place themselves under my care, a perfect and most speedy cure. Secret dis enses are the greatest cremies to health; as they are the first cause of Consumption, Serofula, and many other diseases, and ought to be a terror to the human family. As a permanent cure is scarcely ever effec ed, a majority of the cases falling into the hands of incompetent persons, who not only fail to care, the diseases, but ruin the constitution filling the system with mercury, which, with the disease, hastens the sufferer into

a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current o Scrafnin. Tetter, Illegra, Eruptions, and other af fections of the skin, Eyes, Throat and Lungs, en tailing upon them a brief existence of suffering

signing them to an early grave. SELF ABUSE is another formidable ene my to health, for nothing else in the dread entalogue of human diseases causes so destructive a an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper causes mental derangement, prevents the proper each as Embroideries, Hair Braids, Hosiery, Capa and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the ing-always at home. fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy Cure can be effected, and with the abandonment of ruinous practices my patients can be

restored to robust, vigorous health. catch and rob the unwary sufferers, that millons catch and rob the unwary sufferers, that millons sale on the most liberal terms for cash, all have their constitutions ruined by the vile com-kinds of Foreign Coarse, and Fine Salf, from pounds of quack doctors, or the equally poison-ous nostromsvended as "Patent Medicines." I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing disease disables

the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, discovered a CERTAIN and simple CURE

une most remarkable cures. Medicines sent to oy a desire to benefit his suffering fellows, he any part of the United States or Canadas, by patients communicating their symptoms by letter.

THE REV. C. S. BURNETT, while labordestitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and fermales treated on principles established by 20 vears of practice, and sanctioned by thousands of the most remarkable cures. Medicines sent to the most remarkable cures. Medicines sent to will cheerful sond the Recipe (free) to such respectively. paring and successfully using the Medicine. Addicess, Rev. C. S. BURNETT, 831 Broadway, N. Y. City.

the suffering attending this fearful scorree, which annually destroys 95,000 persons in the U.S. alone and a correct calculation shows that of the presen population of the earth, 80,000,000 are destined

sex, but sweeps off alike the brave the beautiful graceful and gifted. By the help of the Su-preme Being from whom cometh every good and perfect gift, am enabled to offer to the athicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood and the immediate effect produced by their deposition in the lungs is to prevent the free admis-sion of air into the air cells, which causes a weakened vitality thro' the entire system. Then surcly it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling the remedies Thus. Inhalation is a local remedy, nevertheless t acts constitutionally, and with more power and certainty than remedies administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloro-form inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous sys tem, so that a limb may be amputated withou

be immediately detected in the blood, Aconvin cing proof of the constitutional effects of inhala tion, is the fact that sickness is always produced by breathing foul air–is not this positive evidence that proper remedies, carefully prepared and ju-dictionally administered through the lungs should produce the happiest result? During 18 years practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treat ment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, etc., enables me to distinguish, readily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even it a single case. This familiarity, in connection with certain Pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests to enlarge the chest, purify the blood, impart to t renewed uttality, giving energy and tone to the

of the United States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my see. ing the patient again.
