Diseases, such as Spermatorrhæa, Semina Weakness, Impotence, Gonorrhees, Gleet, Syphilis, the Vice of Onanism, or self abuse, &c., &c.
The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the trent-ment of this class of diseases, in all their forms, and to give Medical Abvice GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to furnish medicines free of charge. It is needless to add that the Association commands the highest medical skill of the age and will furnish the most improved odern treatment.

The Directors on a review of the past, feel ssured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have esolved to devote themselves, with renewed zeal, to this very important but much despised

Montrose, Aug. 10th, 857. The Magnetic Belt. THE undersigned, after many years of careful research and experiment, have discovered and perfected a safe, convenient and unexceptionable means of completely controling the maternal function, without employing any of the unnatural and deleterious expedients so often resorted to for that purpose. Apart from its specific use of preventing conception, it is an infalible means of restoring to health and vigor the abused detanged Wyoming valleys, directly through to Now and enfeebled procreative functions of females, and of reinvigorating and restoring the general health to its wonted constitutional integrity. It body directly over the os illium, by the magnetic action of which the feeundating power is intercepted and held in abeyance, and the vital neuromagnetic currents, otherwise desired of the control of th magnetic currents, otherwise drained off by sexual excesses, are turned back thro' the system, stimulating all the viscera to a healthy normal tone. In a true moral aspect, no valid objection can be urged against its lawful use, as it is designed to subserve a great humanitary purpose in the reproductive economy. It is impossible in a brief card to give the reader an adequate constant. ception of the virtues of the discovery and the modus of its action. Accordingly, the proprietors have prepared a pamphlet, fully embodying the philosophy of its influence upon the genitive func-tion, its uses, tests and results, which they will torward upon the receipt of six cents in postage stamps, to any address. DR. J. C. AYER: 160 not hesitate to say, the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Caid, is your CHERRY PERFORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EREN KNIGHT, M. D.
A. B. MORTLEY, Rea, of Urrea, N. Y., writes: "I have used your Perroval inyself and in my family ever since you invented it, and believe it tile best medicine for its purpose ever put out. With a bad cold I should sconer pay twenty-five dollars for a bottle than do without it, or take any other venedy."

"I had a tedious influenza, which confined me. in doors six weeks; took many medicines without relief; finally tried your Petrosal. by the advice of our ciergyman. The first dose relieved the screness in my throat and lungs; less than one half the bottle made me completely well. DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PROTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Aver's Cathartic Pills.

Tile sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in procedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to curs. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful affects, they are at the same time, in diminished does, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminet-clergymen and physicians have lent their names to certify to the public tise reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men

JOY TO THE AFFLICTED!!! It cures nervous and debilitated sufferers, and removes all the symptoms, among which will be found indisposition to exertion, loss of power, loss of memory, difficulty of breathing, gen-eral weakness, horror of disease, weak nerves, trembling, drendful horror of death, night sweats, cold feet, wakefulness, dimness of vision, languor, universal lassitude of the muscular system, often enormous appetite, with dyspeptic symptoms, hot hands, flushing

of the body, dryness of the skin, pallid countenance and eruptions. on the face, pain in the back, heaviness of the eyelids, frequently black spots flying before the eyes, with a temporary auffusion and loss of sight; want of attention, great mobility, restlessness, with hower of so-ciety. Nothing is more desirable to such patients than solitude, and nothing they more dread for fear of themselves; no repose of manner, no earnestness, no speculation, but a hurried transition from one question to another.

These symptoms, if allowed to go on-which this medicine invariably removes—soon follows loss of power, fatuity and epileptic fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—insanity and consumption? The records of the insane asylums, and the melancholy deaths by consumption bear am-ple witness to the truth of these assertions. In lunatic asylums the most melancholy exhibition appears. The countenance is actually sodden & its it. Should a sound of the voice occur, it is rarely articulate.

A TRUE LOVE STORY.

The New Orleans Crescent tells the follow. ing little love story, which is so pretty and romantic in its details that one would suppose it a fiction, but for the good authority upon which it is said to be obtained:

Some fifteen or sixteen years ago, in the Faderland, a young man named ling, and a young girl named Weeun, loved each other very hard and wanted to marry. A tightness in the money market, however, forbade the banns; so, after considering the matter, the lover kissed his sweetheart, swore a true lover's oath to 'come back and marry her in' good time, and came to the United States to seek his fortune.

He worked like a good fellow, and prospered; and after saving up a good sum lie flew on the wings of love to Germany. But a terrible disappointment met him. His intended bride was gone! She had not taken "cold pisen," or eloped with a tinker; but weary of her lover's long absence, and des-pairing of his return, she had, like the brave little sweetheart that she was, set out for the United States, determined to find him, and enter into the united state which is the El Dorado of all true lovers. So the young man came back to this country, on the paddle wheels of love, and with the additional celerity which the screw propeller of anxious suspense always imparts. He sought his fair one everywhere; many journeys he took, and much money he lost; but all to no purpose. And he gave up his Christine as forever lost to him.

He came to New Orleans; and Time, after cooling and petrifying the lava current of his first love, introduced him to a fraulein, as fair and sweet, perhaps, as the lost Christine. He married her, and they went to Texas, where they settled and were happy. Old Time continued to trundle the years around Two fine children blessed the union, but a sad event followed, in the death of the wife and mother. Ever since then, or until recently, uite destitute-neither mirth or grief over vis. the widower remained there, prosecuting his

business and taking care of his children. Some weeks ago he returned to New Orleans on business, and whilst here, found it necessary to go to Cincinnati. He went there to stop a few days. One night, when he was returning to his lodgings from some place of amusement, he was alarmed by female screams not far off. He ran, with others, to discover the cause, and found that the screams proceeded from a girl about eight years old, lying helpless' on the banquette. She was badly, but not dangerously burt; and in reply to the questions of the crowd, stated that her uncle, with whom she was living, had come home drunk and violent, causing her, in her anxiety to avoid him, to fall out at a window. As she was a german girl, the widower Iling naturally felt interested in her and plied her with all sorts of questions, as to her parentage, circumstances, etc. She told him, among other things, that her mother's first name was Christine. That aroused an old memory and stimulated fresh inquiry. The girl gave such information, finally, as to leave no doubt on lling's mind that her mether was his own long lost sweetheart-his first love. She had been for some years a widow, and was living dependent upon the charity of her deceased husband's brother, on a farm ten miles out in

the country. Next morning Iling took the little girl out there, and was by her introduced to her mother. The recognition was mutual and instantaneous. Of course there was a scene 100,000 Bottles have been sold and not a of first love melted on both sides. The widow Personally appeared before me, an Alderman of the City of Philadelphia, H. T. Of course the rest may be anticipated. The couple reached New Orleans a few days ago, having married during the passage down the river-the little girl, of course being along, and put off by the earliest

conveyance to Texas.

MESMERISM .- A few years ago, before the rail road companies between Albany and Buffalo had provided the long and comfortable cars now used by the mail agents, and Livingston & Well's Express, the latter rode in the passenger cars "just like anybody," and of course, encountered all sort of characters. One of the firm, whose love of waggery is well known, happened to be going to Buttalo, and was quietly seated in the car, when his attention was directed to the conversation of two individuals opposite. One of these was, it appeared, a travelling measurerizer—a regular "professor" of the science. He was dilating upon its rapid development—the wonderful phenomena it exhibited—its astonishing curative powers for disease—the extraordinary discoveries developed through its agency. Finally, he got upon his own superiority as a 'professor," a congenial theme, and he was at home. After narrating a variety of experiments, "some" of course, he spoke of the
