Postponing" a Goose

sortment of interested in making the trip as profitable as possible. As a general thing, a meaner table was never provided in a cheap boarding-

During the passage, we were becalmed one day on a part of the coast which was excellent fishing ground; and the captain, with the view of saving a dollar or two, ordered the men to get out their fishing tackle and try which the undersigned has on hand and for sule. their aqueous abode to the deck of the ship. The captain enlarged upon the delicacy the fish, and closed by asking, "what say

you to a fish-dinner to-day, ladies and gen-themen." Everybody said, "By all means!"

Attached to the ship was a negro cook

called Centaur. "Centaur !" cried the captain.

" Aye, aye, sa !" "Cook a mess of fish for the passengers digner; and d'ye hear, postpone that goose!

All right, sa !" Centaur seemed troubled, and scratched is the first time I eber hearn ob postponin' bruth of the above. J. F. CRC Montrose, Feb. 16th, 1858.—7tf. a:goose! "Oh!" said Jimmy, winking at his com-

panions "that is easy enough, I thought every fool knew that." "I thought so too, an' so I say to myself, method of treating diseases.

Jimmy Ducks'll know." "Well, you see," said Jimmy, looking serious; "it isn't a common way of cooking a goose, but ven it is served up after fish, at the nobility's dinners, they 'postpone' it. Now, this is the mode: After drawing the bird, stuff it with a mixture of 'ard boiled eggs, chopped fine, onions ditto; apples ditto; biscut pounded into bits, and portions of a fish previously browned on the fire. Then put the goose into the pot, boil it for 'all an 'our, place it in the oven, and bake it for 'alf an our; then put it on your spit, rosst it until done, and serve with gravy."

Centaur listened with attention, and noting upon the tablet of his brain Jimmy's directions, started for the gallery highly elated. s Dinner time arrifed, and Centaur won honor by the style in which he served the fish. Dish after dish appeared; and when every one supposed the meal was finished, another dish was placed before the captain, who, upon removing the cover, to his indignation, discovered the goose! His wrath was not to be suppressed, and in a passion he shouted-"Send that infernal cook aft."

Centaur ented the cabin very good humeredly, having no suspicion of anything wrong, and was startled by the question—

The passengers saw the joke, and burst into a laugh. The captain was somewhat molified, and requested Centaur to explain himself. "Well, sa," said he, "you ordered me to cook de fish an' postpone de goore. Now, I neber postponed in all my life, an' on course didn't know nothing 'bout it; but Jimmy Ducks 'lighten me on de subjict, an' I foller exactly his description. tion, and even the captain smiled. . "Be off, you blockhead," he said " and send Jimmy Ducks here."

The darkey was off in a twinkling; and there being some curiosity as to this new style of cooking, we tried the goose, but could not tell whether we were eating fish, flesh or fowl, Jimmy soon appeared and was compelled to repeat the direction he had given the cook, forgiveness only being extended to him on the condition that he should eat the whole of the goose.
"My heyes!" was his exclamation when

he had completed the task; "if that's postponed goose, I vish the cap'n ud 'ave one postponed every week. The dressin' 'owsoever, might be waried, so as to be a leetle more palatable."

A NICE POINT OF LAW .- I heard this anecdote from a gentleman long resident in Philadelphia. Two Quakers in that place applied to their society, as they do not go to law to decide in the following difficulty. A. is uneasy about a ship that ought to have arrived, meets B., an insurer, and states his wish to have the vessel insured. The matter is agreed upon. A. returns home and receives a letter informing him of the loss of his ship. What shall be do? He is afraid that the enmt, the past season, and are fully satisfied that policy is not filled up, and should B hear isit a good machine, and we recommend it to the matter soon it is all over with him, he of the matter soon, it is all over with him, he therefore writes to B. thus: "Friend B., if thee has 't filled up the policy thee needn't, for I've heard of the ship." "Oh, oh!" thinks B. to himself, "cunning fellow; he wants to do me out of the premium." So he writes thus to A.: "Friend A., thee be est too late by half an hour, the policy is filled." A. rubs his hands with delight; yet B. refuses to pay. Well, what is the decision! The loss is dirided between them.

THE WAY HE DIED .- The ne plus altra of hidicrous epitaphs is to be found on a gravestone in Oxford, N. H., as follows:

To all my friends I bid adieu; A more sudden death you never knew; As I was leading the old mare to drink, She kicked and killed me quicker'n wink."

SHARP SHOOTING .- " Do try to talk a little common sense," said a lady to her visitor.
"Oh! but wouldn't that be taking an unfair advantage of you?

A gentleman, having engaged a bricklayer to make some repairs in his cellar, ordered the ale to be removed before the bricklayer commenced his work. Oh I am not affaid of a barrel of ale, sir," said the man, "I presume not," retorted the gentleman; "but I think a barrel of ale would run at your approach."

*Mr. Smith, don't you think Mr. Skeesicks is a young man of parts ! Decidedly so, Miss Brown be is part numbskull, and part knove, and part fool !"

BROTHER AYER: I will cheerfully certify your PROTEST is the best remedy we possess for the cure of Whooping Ough, Croup, and the cheet diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

AMOS LEE, Esq., Morteret, Ia., writes, 3d Jan., 1856:
"I had a tedious infinenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PROTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma of Phthisic, and Brouchitis.

WEST MARCHETTE, Pa., Feb. 4, 1858.
Sis: Your CHERN PROTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last farty year.

At A. RAMERY, M.D., Almos, Morkos Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your General Protonal for giving ease and relief to consumptive patients, or curing such as are curable."

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerons cases as this. Some no human aid can reach; but sven to those the Chirary Pecronal affords relief and comfort.

Afford House, New York City, March 5, 1886
Doctor Afre, Lowalt: I feel it a duty and a pleasure to inform you what your Cherary Pecronal has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gare her much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for advice, frecumended a trial of your medicine. We bloss his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as the used to be, but is free from her cough, and calls herself well. Yours with gratitude and regard.

Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and would discove. They are sout the food humors which remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous disease that have belied the best of human skill. While they produce powerful effects, they are at the same time, in diminished does, the the best of human skill. While they produce powerly
