Kansas Constitutions—A New Declaration.

Kansas has been afflicted with Constitutions. The free State party have a perfect mania for the manufacture of these articles. No nest of counterfeiters were ever more busy or adroit in the business of manufacturing spurious coin, than they are in constructing irregular forms of government. Topeka has the honor of giving birth to the first of these documents, and although formed without authority of law, by a party and not the people, it was adhered to with vigorous pertinacity until within a very few months. This aptness at Constitution making did not extend to the regular exercise of that faculty, for when the members of the Lecompton Constitution were elected, the Topeka party stood aloof. It now appears that they were holding their powers and experience in reserve, for the great work of framing another bogus Constitution. While Congress has been agitated upon the question of admitting Kansas under the Lecompton Constitution, the free State party of Kansas have been indulging their favorite propensity and keeping their hands in, by making up another Constitution. The result of their labors appears in most intensely concentrated and deeply dyed abolition instrument, which puts the negro on a level with the white man, and elevates him to the dignity of a sovereign.

But this may go for what it is worth. If the white men of Kansas composing the political free State party choose to put them selves on a level with the negro, we suppose it is nothing more than a just and impartial estimate of their worth. We know of no better judges than they are themselves. But the most significant part of the whole affair was a defeat of a resolution, by a vote of fifty one to twenty-nine, that Lecompton should not be submitted to for any period or purpose. We are told that a large majority of the free State party were in favor of accepting the Lecompton Constitution, if passed by Congress, for the purpose of organizing the government and taking immediate measures to supercede it by a free State Constitution.—This is significant, because it is an evidence that if the Lecompton Constitution is adopted, there will be no confusion, no anarchy, no war, no bloodshed, none of the untold horrors that have been so freely predicted, but that the free State party will proceed quietly to alter and amend the Constitution. That they have the right to do so, the supporters of the Lecompton Constitution have freely admitted, and although its enemies have contended otherwise for the purpose of making it odious it appears that they have now arrived at the same conclusion. The country must see that the only way to settle the Kansas difficulties is to adopt the legally framed Lecompton Constitution, whereby all the forms of law will be preserved, and substantial justice done to all parties. Throw that overboard, and the result will be disastrous to the peace and harmony of the country, and productive of good to not a living soul throughout the whole land. Peace and quiet is on one hand, discord, strife, and confusion on the other.—*Patriot and Union.*

IMPORTANT BILLS PASSED.—The Senate, on Saturday, concurred in the report of the conference Committee on the Liquor bill, and the act passed, by a vote of 19 to 9.

The bill for the sale of the remaining Public works to the Sunbury and Erie Railroad Company was under consideration several days of last week. On Friday evening, the session was prolonged by debate upon that measure to 1 o'clock of the next morning, and many able arguments on both sides were delivered.

The debate was resumed on Saturday morning, for a brief period when the previous question was called and the bill passed—eighteen members voting for it, and fourteen against it. The bill was immediately sent to the House, where the Senate amendments were concurred in and the bill passed finally. It is now in the hands of the Governor.

FASHIONABLE WOMEN.—Read the biographies of our great and good men and women, says an exchange, "not one of them had a fashionable mother. They nearly all sprung from plain, strong-minded women, who had about as little to do with the fashions as with the changing of clouds."

Governor Packer as a Stump Speaker.

A paragraph has been going the rounds of our contemporaries for some period, and at last been re-produced in our neighbor of the *Telegraph*, giving the names of certain prominent gentlemen, who, it is asserted, are to speak against "the Lecompton party" in Illinois, during the coming summer, and among the list appears the name of Gov. William F. Packer. There is so much absurdity in mixing the name of our distinguished State Executive in connection with those of Seward and Hale, and other Republican rantors, as is done in this connection, that we have not thought it worth while to notice a paragraph which bears every evidence of untruth on its face, until its repetition near home has demanded it. We speak not by authority, but we do not hesitate to deny that Gov. Packer ever authorized his name to be mentioned in such a connection, and will promptly disavow any such design. He is a man of too patriotic impulses to lend the weight of his proud name to any movement that will tend to the disruption of the Democratic party, after it has spoken by its representative majority, much less lacking the shrewdness that would foretell the effects of such a move to his own personal interests. The design of the paragraph in question is too plain to need exposition. It is a shameful attempt to bolster up the sinking fortunes of a rotten craft, by the use of favorite names, whose owners have entertained honest sentiments to some degree in opposition to a portion of their chosen party, but who never consent to occupy a position of decided hostility to the same, therefrom.—*Harrisburg Herald.*

LIBERIAN COLLEGE.—A plan has been adopted by the friend of Liberia to provide the Republic with a College, where its young men may be trained for usefulness in the learned professions, as legislators, teachers, &c. "The Trustees of Donations for Education in Liberia" was incorporated by an act of the Legislature of Massachusetts, approved March 19th, 1850; and the College was incorporated by an act of the Legislature of Liberia, approved December 24th, 1851. Its charter is nearly the same as the best College charters in the United States. The amount of funds received by the Trustees is believed to be about $30,000. The New York Colonization Society has $53,000, which is applicable, at its discretion, to this object. The late Mr. Phelps bequeathed to his executors $50,000 for this College, provided the enterprise of these Trustees should proceed, and $100,000 to be secured in this country for that purpose. It is hoped that this latter sum may be raised during the present year, and thus render available Mr. Phelps' legacy.

A short time since, well-selected and suitable materials for college buildings were procured and shipped from Boston, and landed safely at Monrovia, at a cost, including erection, which will reach at least $20,000. At the latest accounts from Liberia, the work of putting up the college structure was in progress, and the walls and roofs will speedily be completed. Contrary to general expectation, the building is being erected on Cape Mesurado, about a mile from the city of Monrovia, on the southwestern slope of the promontory fronting on the ocean. Ex President Roberts has been appointed President of the College, and has accepted the position.—*Colonization Herald.*

ROBBERY IN DUNMORE.—We have a communication too lengthy for publication setting forth the following facts, which we will not vouch for, but only publish from statements made in said communication:

A robbery was committed in Dunmore on Sunday, April 4, about one o'clock in the morning, at the house of S Chatman. The circumstances are these:—A man from Susquehanna County, by the name of James Armstrong, received of a Mr. Frost in Dunmore, $175 in Honesdale Bills. This transaction occurred the last of the week. Mr. Armstrong, from some reason or other remained at Dunmore until Saturday evening, and upon retiring to bed, was assisted by a man in a very officious manner; helped him pull off his boots, when Armstrong retired; upon getting up his pocket book, containing all his money, was gone.

The writer added:—this is the fourth robbery that has recently been committed in Dunmore. We since learn there has been some investigation of this affair, but we are not acquainted with the results.—*Scranton Republican.*

The taxpayer has an inalienable right to have such information furnished: and Directors will find it will save them much trouble.

☞ DIDDINESS, HEADACHE, &c.—These pains and disagreeable feelings are generally symptoms of some other complaint; such as dyspepsia, apoplexy, and various others, all of which are caused by corrupt noxious matter, clogging the various circulations; hence, a stream or rush of the blood to the head, and by the excitement a great pressure on the brain.—Giddiness, headache, loss of memory, dimness of sight, and various other complaints are the result. Thus it will be seen that all those painful and distressing maladies owe their origin to the blood. Dr. Morse's Indian Root Pills are acknowledged to be the only medicine that will thoroughly purify the blood. They enter the blood, and follow the stream of life on its journey through the system. They root out all foulness and impurity, and drive out every unhealthy obstruction. They should be taken every night in sufficient quantities to operate briskly, by commencing with two pills on going to bed, three the next night four the next; if the symptoms are not removed, commence again with the pills and go up again as before. Continue in like manner until the blood is thoroughly purified, and all pain and distress is thoroughly removed.

Obtain one of our Free Almanacs, and read the history of Dr. Morse's father, and how this medicine was introduced.

Beware of a counterfeit of these Pills—Yellow Wrappers. All genuine are in blue wrappers, with the signature of A. J. White & Co. on each box. Price 25cts. [ma.

The deceased was born in Wyalusing, Bradford county, where she spent her early life. She made a profession of religion and joined the Congregational church in Wyalusing about 45 years ago,—for the last 32 years she has been a consistent and exemplary member of the Presbyterian church in Brooklyn. When struck down by the disease which terminated her life—apoplexy—she said she was prepared to go; her trust was in Christ her Saviour.

In her, her bereaved husband and children have lost a kind and devoted wife and mother, with many kind friends to mourn their loss. [Com.

IMPORTANT TO

TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S Taste Restorative Troches.—The Great Substitute for Tobacco. It is a well known and incontrovertible fact that the use of tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic & poisonous properties most dangerous in their effects, which by entering the blood derange the functions and operations of the heart, causing many to suppose that organ to be diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the weed will testify—in lassitude, nervous irritability, water brash, dispepsia, and many other disorders of a similar character. The

TASTE RESTORATIVE TROCHES

are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the throat—which are always consequent upon abstaining from the use of tobacco, and by giving a healthy tone to the stomach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives, should use these troches immediately and throw off the injurious & unpleasant habit of chewing tobacco.

These troches or lozenges are put up in a convenient and portable form at the low price of 50 cents per box. A liberal discount to the trade.

Prepared solely by the undersigned to whom all orders should be addressed.
