A STATE AND A STAT

Read their card in another colomn.

We were shown recently, a Hinge, invented and patented by Dr. J. Sherbourne Smith, which appears to be one of the most useful of all inventions. It combines four separate and distinct capacities, viz. :

2. It will by a simple adjustment close a door, and keep it closed, with any degree cf

force required. 3. By a difference of adjustment it will cause a door to open and remain so. 4. And by another adjustment a door may be made to stand open at any desired angle, and with sufficient force, if necessary, to resist the strongest wind or other influence. - This hinge is designed to be used on doors of houses, stores, banks, &c.; or on trunks, windows, blinds, and, in fact, wherever any hinge may be used. Though of triffing expense, its value is untold; simple in construction it cannot break, or wear out, and may be adjusted by any person very easily. The Dr. intends to engage, in the manufacture of his hinge, before long, and when its merits are fully known, it cannot but come into use everywhere. The Dr. will spend a few weeks at Susquehanna Depot, where all who desire, can see the hinge and Judge for themselves.

Since the passage of the English bill, the Black Republican party find nothing of which to complain, except that a bribe is offered to the constitution. Those who make such a there is nothing in it. It is merely a hobby are to be judiciously appropriated, the war

how the more sensible of the opposition view this feature of the bill, we present the following comments upon it from the Washington States, an anti-Administration paper :

the people, according to our interpretation. allows the latter to express their will on the constitution. It is a virtual submission of the constitution, though not done in as straightforward a manner as we could desire. "As the ordinance is only such a one as i

influenced to accept it. Whenever they come in, they will have just such an ordinancecertainly one of not less value; while the Lecompton ordinance would have given them one seven times more valuable. The Lecomp ton ordinance would be worth in land some \$29.490.200 ; the bidinance of the new bil gives land to the amount of over \$4,000,000 Therefore we cannot regard the new ordinance

that demanded by Kansas, supposing Kansas to have made the Lecompton instrument. If when she comes in with any other constitution;
