ach is most liable to get out of order. Hence how important that no-diseased matter clog its operation, which would cause nausea and dis-tress by the food. It also weakens the brain, destroys the memory, creates pains and dimness, and various afflictions of the head. It produces great difficulty in breathing and swallowing. Sometimes fainting fits will ensue; also bad breath, restlessness and great'loss of strength.
If' not immediately attended to, the blood will carry the disease through the whele system, and death will end the work. From 2 to 5 of the Pills a day will keep the digestive organs in a healthy condition, and unclog or carry away all impure matter, and thoroughly restore and cleanso the stomach; at the same time the Pills will so purify the blood, as to drive all manner

of disease from the system.

Worms.--In a quantity of corrupted matter, there is always to be found a nest of worms. They cannot, neither will they stay anywhere Weak stomach and bowels are subject to them, as they have not sufficient power to digest their food. Hence a large heap of matter is lodged, and worms must be the result. A few doses of these Pills will disturb them in their nest, and drive them out of the system. IT SHOULD BE REMEMBERED, that an decasional dose when in health, especially after taking cold, will prevent the disease from forming in the body.

[mje Holloway's Pills -- New Facts ..-Within the last few months many cures of sur-passing interest and of the most marvellous character, have been accomplished by this all-potent remedy. We can say, on unquestionable authority, that new forms and complications of disease, which had baffled every effort of the faculty, have been subdued by the Pills with the greatest fa-cility. Bilious complaints, combined with affections of the lungs and terrible enfeeblement of past thirty years, I would now beg leave to inthe whole system, have been among the cases which have yielded most readily to their action. They seem to be specially adapted to the cure of those disorders of the stomach, liver, and bowels most prevalent in this country. `22w1.
