JOY TO THE AFFLICTED!!!
It cures nervous and debilitated sufferers, and removes all the symptoms, among which will be found indisposition to exertion, loss of power, loss of memory, difficulty of breathing, general weakness, horror of disease, weak nerves, frembling dreadful horror of death, night sweats, cold feet wakofulness, dimness of vision, languor, universal lassitude of the muscular system, often enormous appetite, with dyspeptic symptoms, hot hands, flushing of the body, dryness of the skin, pallid countenance and eruptions on the face, pain in the back, heaviness of the eyelids, frequently black spots flying before the eyes, with a temporary suffusion and loss of sight; want of attention, great mobility, restlessness, with horror of society.—
Nothing is more desirable to such patients than solitude, and nothing they more dread for fear of themselves; no repose of manner, no earnestness, no speculation, but a hurried transition from one

question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows loss of power, fatuity and epileptic fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—insanity and consump-tion? The records of the insane asylums, and the melancholy deaths by consumption bear ample witness to the truth of these assertions. In lunatic asylums the most melancholy exhibition appears. The countenance is actually sodden & nuite destitute-neither mirth or grief ever visits it. Should a sound of the voice occur, it is rarely articulate.
