BY A RETIRED ATTORNEY.

Every body who knew John Gordon knew him to be one of the meanest and most contemptible men that ever was permitted to -next after his blood and pedigree-entirely walk the earth. His brother Peter was not upon the manner in which it is reared and a whit better-so that it would appear that trained for use. The following letter from a meanness ran in the blood of the family.

John was pretty well off, so far as this sense upon the subject ! world's goods were concerned. His property was all invested in a building which had cost to make a horse worth one, two or five hun-him about thirty thousand dollars. He did dred dollars, I would give him a stable at not marry until he was forty-probably from night ten feet square, by himself; keep it well the fear of incurring unnecessary expenses, and when finally he did take a wife, it was I would not have him stand on anything wet, and when many he would have taken him a house and would feed him all the hay—good clean hay—he could eat, and would feed him keeper, a servant.

The person who professed to have witnessed the signature of Mis. Gordon was a clerk in the office of Peter. My first move was to take steps to arrest him on a charge of fraud, and to sue his employer for my client's share of the rents, which he had just collected, and which he had refused to pay over to her. When I had proceeded thus far, I received a visit from Peter Gordon.

"I-I don't understand you!" he stammered out.

"Don't trouble yourself about it, Mr. Gor don, you will understand it all in due time." For God's rake don't arrest my clerk. He will be the ruin of me," groaned he. "You should have thought of that before." I said."

It is a well known and incontrovertible fact that the use of tobacco is the promoting ause of many of the most severe MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as careful analysis and long and painful experience have

clearly proven that it contains certain narcotic & polsonous properties most dangerous in their effects, which by entering the blood derange the many to suppose that organ to be diseased.

TOBACCO affects also the entire pervous system, manifesting itself—as all who have ever used the weed will testify—in lassitude, nervous irratibility, water brash, dyspepsia, and many other disorders of a similar character. The TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. JOY TO THE AFFLICTED!!! It cures nervous and debilitated sufferers, and removes all the symptoms, among which will be found indisposition to exertion, loss of power, loss of memory, difficulty of breathing, general weakness, horror of disease, weak nerves, trembling, dreadful horror of death, night sweats, cold feet, wakefulness, dimness of vision, languor universal lassitude of the muscular system, often enormous appetite, with dyspeptic symptoms, hot hands, flushing of the body, dryness of the skin, pallid countenance and eroptions on the face, pain in the back, heaviness of the eyelids, frequently black spots flying before the eyes, with a temporary suffusion and loss of sight; want of attention, great mobility, restlessness, with horror of society. Nothing is more desirable to such patients than solitude, and nothing they more dread for fear of

themselves; no repose of manner, no enrnestness, no speculation. but a hurried transition from one question to another.
These symptoms, if allowed to go on—which this medicine invariably removes—soon follows loss of power, fatuity and epileptic fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—insanity and consumption? The records of the insane asylums, and the melancholy deaths by consumption bear am ple witness to the truth of these assertions. In lunatic asylums the most melancholy exhibition appears. The countenanco is actually sodden & quite destitute-neither mirth or grief ever vis-
