HAMMONTON LANDS. NEW ENGLAND SETTLEMENT. RARE opportunity to all wanting farms—in a healthy place, twenty-five miles from Philadelphia, on the Erie and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards.

The soil is of the best quality for the production of fruits, grains, &c. The price is \$16 to \$20 per acre, payable in easy yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are generally expected to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started upon the ground. A person can put a large tract of land in the hands of a contractor, and have it sold to him by the acre, or by the whole, or by the half, or by the quarter, or by the eighth, or by the sixteenth, or by the thirty-second, or by the sixty-fourth, or by the one-hundredth, or by the two-hundredth, or by the four-hundredth, or by the eight-hundredth, or by the one-thousandth, or by the two-thousandth,
