HAMMONTON LANDS. NEW ENGLAND SETTLEMENT. PARE opportunity to all wanting farms—in a feetly pleasant in the healthy place; twenty-five miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 [Pharmacy and decrease willight up into farms of twenty anguage and decrease willight up into farms of twenty anguage and decrease willight up into farms of twenty anguage. acres divided up into farms of twenty acres and upwards. The soil is of the best quality forthe production of fruits, grains, &c. The price is \$15 to \$20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five ouses have been built in four months. Practical furmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale.

The water is excellent and no such thing as fe-The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its mar-

The reader may be well aware that the earlie | sold by est and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards be-

ing started upon the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best ferms.

In settling here the emigrant has many advan-

tages. He is within a few hours' ride of the great cities in the Middle States and New Engand: he is near his old friends and associations he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away a. m., and connects with the EXPRESS Train from home and friends. Boxides, he has a mild which leaves Great Bend for New York and Phil's limate and an open winter.

There are three trains daily to Philadelphia, and to those who improve the railroad company

gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before.-The reason is, it was never thrown in the market; and unless these statements were correct. no one would be invited to examine the land be fore purchasing. This all are expected to do.— They will see the tand under cultivation; they BEG leave to announce to the public in general that they are now opening one of the largest STOCKS of MERCHANDISE ever offered in Montrose. Diseases, Female Complaints, and all Diseases of the Sexual Organs, trising from excesses and imprudences in life, and removing all improper discharges from the blad-

It cures nervous and debilitated sufferers, and removes all the symptoms, among which will be found indisposition to exertion, less of power, loss of memory, difficulty of breathing, general weakness, horror of disease, seak nerves, trembling, dreadful horror of death, night sweats, cold feet, wakefulness, dimness of vision, languor, universal inssitude of the muscular system, often enormous appetite, with dyspeptic symptoms, hot hands, flushing of the body, dryfess of the skin, pallid countenance and eruptions on the face, pain in the back, heaviness of the eyelids, frequently black spots flying before the eyes, with a temporary suffusion and loss of sight; want of atlention, great mobility, restlessness, with horror of society.—
Nothing is more desirable to such patients than
solitude, and nothing they more dread for fear of themselves; no repose of manner, no earnestness, no speculation, but a hurried transition from one question to another.

These symptoms, if allowed to go on-which this medicine invariably removes-soon follows loss of power, fatuity and epileptic fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—insanity and consumpion? The records of the insane asylums, and the melancholy deaths by consumption bear ample witness to the truth of these assertions. In unatic asylums the most melancholy exhibition oppears.
