The Safe, of your manufacture, which we had in the store, was exposed to a most intenxe heat, as is weit attested by the effects on its strong iron frame, which, from its flaked and scaly appearance looks as though it had been heated for a long time to furnace. The Sale, with heaps of molten glass and keys of nails, fused into a mass fell into the ceflar, surrounded by burning materials, and was affored to remain there, (as the contents had been removed before the fire reached na.) until the 2d of August, 14 days afterwards. The diffi-

culty in cutting it open with the best tools that could be procured, convinced us of its power to resist the attempts of burglars, and when it was opened, we found the interior, to the astomshment f all, entirely uninjured by fire.
