HAYDEN BROTHERS. New Milford, Pa., Jan. 1st, 1859.

1858. J. DICKERMAN, JR. 1858 HARDWARE & STOVE EMPORIUM! IN FULL BLAST!!

THE undersigned would take this opportunity to inform his friends and customers that he has recently made large additions to his former extensive stock of Hardware, Stoves, Stove Pipe, Stove Trimmings, Zinc, &c., and that he is prepared to supply the wants of the community in that line at unusually low prices. He flatters himself that his facilities for manufacturing his own Wares, Stoves, &c., give

him a decided advantage over any who pur chase and transport at a heavy expense their en tire stock.

He would say to those who wish to purchase STOVES of any description, STOVE-PIPE, or TRIMMINGS, of any kind, and pay for them, he is prepared to give them great bargains; but to those who want to purchase on a year's credit and then let it run two years more, he had rath-

er they would call on some one else, even if they have to pay seventy-five per cent more than an article is worth. In the line of Shelf Hardware,
his assortment is the largest and best selected in
Susquehana. County, purchased as his stock
has been mostly of manufacturers, he is enabled to offer inducements to those country merchants who buy small bills, rarely found this side of who buy small bills, rarely found this side of the big city. We can offer special inducements to Carpenters and Joiners who are in want of either Tools or Building Materials. Black-smiths can find ANVILS, VICES, BELLOWS,

and, in fact, almost anything in their line, by call-CHEAP FOR CASH. Our stock of Dry Goods, Groceries, Boots and

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, despending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who saye, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from sctofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which although not scrofulous in the mature. Scrofula, or King's Evil.

stand the attacks of other diseases; conse-quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or the intervaled by the serve of the serve.

and, indeed, of all the organs, arise from or me aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food, and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eduptive and Skin Diseases, St. Anthony's Pike, Rose, or Edvaspellas, Pineles, Perteles, Blackhes, Blains and Bolls, Tundes, Tetten and Salt Raeem, Scald Head, Ringworm, Ringumatism, Symilletic and Merchal Diseases, Doorly, Dyspersia, Deblity, and, indeed, all Complaints arising from Vittates on Imputing of the blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid without which sound health is impossible in contaminated constitutions. the most effectual remedy which the medical

Aver's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints. Contremens, Hearthurn, Headache ariting from disordered Stomach, Nausen, Indigestion, Pan in and Morbid Inaction of the Boicels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly krown, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too in uncrous and too remarkable to be forgotten.
