A WORD OF EXPLANATION TO those who have known us nuder the style of Evans & Co. The Business located by us at No. 677 Broadway, New York City, is the oldest established home in the action. No. 677 Broadway, New York City, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advortine ender the same name, to increase their trade—and though a house having neither character or name of its own, can hardly claim to reach the own. a house having neither character or name of its own, can hardly claim the confidence of the community—to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only appears rightfully using the name first and only concern rightfully using the name But to prevent all confusion in the future, we

shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

THE SALAMANDER SAFES OF PHILADELPHIA AGAINST THE WORLD.

EVANS & WATSON Have had the surest demonstration in the llowing certificate that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of

them as rendering an undoubted security against the terrific element:

Philadelphia, April 12th, 1856. Messra, Evans & Warson,—Gentlemen: It affords us the highest entisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jewelry, and all our books, papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th inst.

when we reflect that these Safes were located

in the fourth story of the building we occupied; and that they subsequently fell into a heap of burning ruins, where the vast concentration of

heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance position of the great security afforded by your Safes.
