The Farm---Operations for May. From the accounts thus far received from abroad, and our own observations about home, Tavorable one for Winter crops. Grass and fre offers to his customers and the public at low grain fields come out bright with very little winter kill, and the continued damp weather

bring them forward sufficiently rapid. The heavy rains of April have retarded some of the farm operations, so that a portion of the directions given last month have necessarily been retarted antil now. Read the former calender anew, and attend first to

any work thus kept back.

May is decidedly a working month, in wikel the husbandman must commit his seed to the ear h in faith (not forgetting the "works") if he expects to reap; a harvest in Autumn. In putting in seed, be it grain, sorn, or roots, it is of the first importance that it be well done, for no after labor, however thoroughly performed can wholly com--pensate for wrong planting. To do this properly prepare the ground by manuring well where needed, and with plow, subsoiler, and harrow, or culrivator, loosen and pulverize the soil deeply and thoroughly. If good word be properly put in now, and the weeds kept down, tailures will be comparatively

Ruise the likelist calves and thus improve your stock. Confine working teams mainly to dry tood until the heavy spring work is over.

Cellars are supposed to be freed from all garbage and filth. Open the windows for

Corn-Better let the ground be warm and dry before planting. It will come upstronger and succeed better. Let the ground be well plowed and enriched. Test the seeds by sprouting before planting. Stretch white twine over the fields to scare the crows as soon as planted, and avoid leaving any corn uncovered to attract the birds. Twine strung around the field is very suggestive to them of snares, of which they are shy. If very troublesome, soak some corn in strychnine water and scatter over the field.

Fences-Put them in complete order. Poor fences make breachy cattle.

Grain—Complete sowing any crops not put in last month. Keep stock of all kinds from feeding upon fields sown last month, and from the Winter grain. Go over the latter and pull out exckle and other foul stuff which shows plainly at this season.

At a recent trial of a cause before a Daniel S. Dickinson was counsel for the plaintiff, and Mr. II., of Binghamton, for the defendant. Mr. II., albeit a lawyer of some eminence, was so interminably slow on this occasion as utterly to wearyout referee and witnesses. One of the latter, while waiting with eager impatience to give his evidence and be dismissed, perpetrated the fol-lowing, and handed it to the ex-Senator for

perusal:
"When Job was tempted by the dovil,
His patience saved his soul from evil; But were he living in our day, And thrown by chance in H.'s way If forced to hear him try a case, I fear poor Job would fall from grace :

He never would endure, I trow, What we poor devils suffer now !" Mr. Dickinson read the lines, and rapi dashed off the following rej under:

"There were no lawsuits in those days, As any one can plainly see,
For, had there been, the devil would
Have made poor Job a referee,
And sent for H. to try-the case,
And spin it on till Job would cry,
and the it would be the case,

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Schoftla AND Schottlags Complaints, Bruttons and Emprine Diseases, Ulcers,

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCEUS, PEMPLES, BLOTCUES, TCMORS, SALT RHRUM, SCALD HEAD, SYPHLIES AND SYPHLIFIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUBEUX, DEBILITY, DYSPEPSIA AND INDIGESTION, EXTSUPELAR, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity optically supplied to the state of t

on Sr. Antiony's Fire, and indeed the whole class of complaints arising from Inpurity of the Bloon.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are hipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

During late years the public have been mis-During late years the public have been misled by large bottles, pretending to give a quart
of Extract of Sarsaparilla for one dollar. Most
of these have been frauds upon the sick, for
they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment
has followed the use of the various extracts of
Sarsaparilla which flood the market, until the
name itself is justly despised, and has become
synonymous with imposition and cheat. Still
we call this compound Sarsaparilla, and intend
to supply such a remedy as shall rescue the
name from the load of obloquy which rests
upon it. And we think we have ground for
believing it has virtues which are irresistible
by the ordinary run of the diseases it is intended to cure. In order to secure their complete
eradication from the system, the remedy should
be judiciously taken according to directions on he judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral, has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnocessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
