Government Expenses-Facts and Figures vs. Windy Declamation.

The Opposition press have much to say ment. They continue to accuse the Democrats in Congress of extravagance in making the appropriations. They claim credit for their organization as being governed by a spirit of economy. That the public may judge of the truth of these assertions, and know who voted generally for the large Congressional appropriations in the last Congress, we give the following, taken from the official records. It will be seen that the Opposition did its best to run up the expenses of the Govern-

BREAD RIOTS IN VIRGINIA .- The flour panic among the farmers in this section bids fair to carry many persons into all sorts of wild extravagance. We learn from a gen-tleman just arrived from Washington county of a reckless thing which took place there on Saturday, and which goes to show the state of feeling existing in that neck of woods. A speculator by the name of Patterson has a large lot of flour at Post's Mill, which he is holding for an advance, in view of the recent damaging frosts. On Saturday some dozen or more farmers living in the vicinity, repaired to the mill, broke down the door, and each took a barrelsof flour and left eight dollars in the mill for every barrel thus removed-all considering that a fair price for an article which they could not buy with the consent of the owner. ARE WE A CHRISTIAN PROPLE .- A recen decision of the Supreme Court of California would answer to this question in the negative. It seems that in the suit before the Court the question of the legal position of idle worship arose. It was alleged in the suit of Eldredge againgst the See YupCompany, that a certain trust was void because the trustes ejected a building to be used occasionally as a Budhist place of worship, wherein an image was ken! "There is no force in the objection that a trust, created for the purpose of idol-worship, is void. Under our constitution all men are permitted the free exercise of their religious opinions, provided it does not involve the commission of a public offence. Nor can any distinction be made in law between the Christian and Jew, Mahomedan or Heathen. The Courts have no power to determine that this or that form of religion or superstitious worip-unaccompanied by acts prohibited by law-is against public policy or morais."

HARVEST PROSPECTS .- Having traversed during the past week many of the western and midiatid counties, we are able to say that the country generally has rarely exhibited a Curpow, John fiver promise. Our grain crops are generally of good color, and well covering the ground, wheat is almost everywhere strong and dark, and barley and oats are generally full of leaf and sufficiently forward. Perhaps the sandier parts of Cheshire should be excepted as suffering over all its late sown spring corn for want of rain. But on the more clayey lands in that county nothing can look finer than the wheat crop and the potato crop, and the abundant growth of grass in the pastures. In Northamptonebire and Bedfordebire, aguin the promise is everything that could be wished - English Papet.

Hollowar's Pills -Rush of blood to the head is often primarily caused by a bad condition of the stomach and bowels. Invigorate the stomach, regulate the excretions, and purify the fluids with this world-renowned medicine you will be exempt from vertigo, dimness of sight, headsche and other alarming apoplectic symptoms which frequently accompany dyspep-sia and habitual constipation. The impurity of the blood, as well as an excess of it in the brain the blood, as well as affecteess of it in the brain has much to do with ecrebral affections, and as fiolloway's. Pills operate upon the chemicul agents which generate that fluid, as well as upon the circulation itself, they are infallible in this class of maladies.

Winchester's CENUINE PREPARATION OF THE HYPOPHOSPHITES OF LIME AND OF SQDA.

ORIGINALLY DISCOVERED AND PRESCRIBED BY Dr. J. F. CHURCHILL. FOR THE PREVENTION AND CURE OF

Consumption. "THE SALTS of LIME and of SODA are

the ONLY Preparation which, for the present, I would recommend for GENERAL USE. J. Francis Churchill; M. D. THE THEORY

"Phthisis is a diathesis, or general disease depending upon the want or undue waste of the Oxydizable Phosphorus normally existing in the nimal economy.

THE TREATMENT. "Hence it follows that the Remedy consists n supplying the deficient element by the adminin supplying the dencient chemical by the dulin istration of a preparation of phosphorus which is at once Assimilable and Oxydizable. The Hypophosphites of Lime and Soda possess both qualities in the highest degree; heing perfectly soluble, and nearly as explicable as phosphorus. The Hypophosphites are the Specific Remedy of the Diathesis, or general condition of the system, which has, as a consequence, the deposition of tubercular matter. When once this condition is changed, the deposition of fresh tubercular

matter will coase.

RESULTS OF THE TREATMENT. What I am anxious for is, that the Hypophosphites should be brought as speedily as possible into universal use as I know that they will prove not only as sure a Remedy in Consumption as Quinine is in Intermittent fever, but also as offectual a Preservative as Vaccination in Small-pox. This assertion no longer rests upon the 31 cases with which my discovery was ushered into the world in July, 1857. I can now appeal to the results in unwards of one hundred and fifty detailed observations of the disease, collected during the past year at my Public Dispensory.
