Scrofula, or King's Evil.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, suid may burst out in disease on any part of it. No organ is free-from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dia-ordered ur unhealthy food, impure sui, filth and filthy habits, the degressing vices, and, above all, by the venereal infection. What-ever be its arign, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, «I will visit the languities of the fathers upon their children." Its effects commence by deposition from the blood of corrupt or ulceous matter, which, in the lungs, liver, and internal organs, is termed tubercies; in the glands, 'swellings; and on the surface, emptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous con-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disorders which although not scrofulous in their nature.

quently, vast numbers perish by disorders, quently, vast numbers perish by disorders, which, although not scrofilous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly. climates the human family has its origin directly in this scrofulous contamination ; and many destructive diseases of the liver, kidneys, harm, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our peopleare scrofulous; their persons are invaded by this lurking in-festion, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, Composition LAURACE OF DEFNERTING, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the curs of not only scraftla, but also those other affec-tions which arise from it, such as Eurervrs and SEIN DISEASES, Sr. ANTRON'S FIRE, Ross, of EXTRUELS, PLATERS, PLOYEDES, PLOYED, SUCHERS, PLOYED, SUCHERS, ROSE, OF ERISTPLAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTRE and SALT RIEUN, SCALD HEAD, RINGWORS, and SAIT RHEVE, SCALD HEAD, RINGWORE, RHEVENTISM, STRULITIC and MERCHALL DIS-RABE, DEOFET, DISFERSIS, DEMULTY, and, indeed, AIL CONFLANTS AREING FROM VITIA-TED OR INFURE BOOD. The popular belief in "impurity of the blood" is founded in truth, for scroftala is a degeneration of the blood. The particular purpose and virtue of this Sarapa-rilla is to purify and regenerate this vital fluid, "without which sound health is impossible in contaminated constitutions.

So wide is the field of its usefulness and so nu-merous are the cases of its curve, that almost every section of country abounds in persons pub-licity known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, that public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our elimate.
