Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers periah by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive, consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUFTIVE and SKIN DISEASES, Sr. ANTHONY'S FIRE, ROSE, Or ERYSIPELAS, PINFILES, PUSTULES, BLAINS and BOILS, TUNORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, STPHILLITIC and MERCURIAL DISEASES, DEORSY, DEPOSETY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED ON IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in sontaminated constitutions, Compound Extract of Sarsaparilla. contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indipestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hearseness,

Croup, Bronchitis, Incipient Consump-tion, and for the relief of Consumptive Patients in advanced stages of the So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superlority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this disease. community have failed and been discarded, this has gained friends by every trial, conferred benefits on the silicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

INCLINED TO BE QUARRELSOME. - We heard that prince of story-tellers, Tom Calloway, get off the following amidst bursts of laughter, the other night. Squaring himself and stretch-

ing out his legs, he began:
"There was once a little, slim built fellow, rich as a Jew, and independent as the ideril, riding along a highway, in the State of Georgia, when he over:ook a man driving a drove of hogs by the help of a big, raw-boned, six-feet-two specimen of humanity. Stapping the last named individual, he accosted him:

"I say, are these your hogs?"
"No, sir, I'm to work by the month?"
"What pay might you be getting friend !',
"Ten dollars a mouth, and whiskey thrown

was the reply. Well, look here, I'm a weak, little, inoffensive man, and people are apt to impose upon me, d'you see! Now, I'll give you twenty five dollars a month to tide along with me and protect me," was Mr. Gardner's reply. "But," e added, as a thought struck him, "how right you be on the fight?"
"Never been licked in my life," rejoined

peried Gardner. Six-footer ruminated. Twenty-five dollars -double wages-nothing to do but ride around and smash a fellow's mug occasional-

y, when he's sassy. Six-footer accepted.

They rode till just at night they reached a illage. Dismounting at the door, they went n. Gardner immediately picked out the biggest man in the room, and picked a fuss with him. After considerable promisenous awing, Gardner turned to his fighting friend and intimated that 'the licking of that man had become a sad necessity. Six-footer peel-

ed, went in, and came out first best. The next night, at another hotel, the same row with the biggest man in the place, and six footer doing the fighting.

At last on the third day they came to a ferry, kept by a huge double fixed man who had never been liked in the life.

had never been licked in his life. Whilst crossing the river, Gardner, as usual, began to find fault and "blow." The ferryman naturally got mad, threw things around kind o' loose, and told them his opinion of their kind. Gardner then turned to his friend "from the shoulder," and gently broke the intelligence o him, "that he was sorry, but it was absoutely necessary to thrush that foreyman." Six footer nodded his head, but said nothing. It was plainly to be seen, that he did not relish the job, by the way he shrugged his shoulders, but there was no help for it. So when they reached the abore, both stripped and at it they went. Up and down the bank, over the sand, into the water, they fought, scratched, gouged, bit and rolled, till at the end of an hour the ferryman caved. Six-footer was triumphant, but it had been tight work. Going up to his employer, he scratched: his head for a moment, and then broke forth. "Look here, Mr. Gardner, your salary sets mighty well,-but-I'm-of-the-opinion

THE NEW ERAL SPRING & SUMMER GOODS,

when we reflect that these Safes were located in the fourth story of the building we occupied, and that they subsequently fell into a heap of burning rains, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against fire.
