Rew Agricultural Settlement. TO ALL WANTING FARMS, A Rare Opportunity in a Delightful and Healthy Climate 25 Miles Southeast of Philadelphia, on the Camden and Atlantic Railfoad, NEW JEBSEY.

A N old estate consisting of several thousands of acres of productive roil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New Engand have sattled there the past year improved. rious parts of the middle States and New England have settled there the past year, improved their places, and raised crops. The price of land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Corn, Peaches, Grapes and Vegets-bles. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examing the place itself, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some furly vinyards and peach orchards, planted, and a large number of other improvements, making it a desirable and active place of

THE MARKET. as the reader may perceive from its location, is the

BEST IN THE UNION. Produce bringing double the price than in lo-cations away from the city, and more than dou-ble the price than the West. It is known that the earliest and best fruit and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here the settler has many advan-

tages. He is within a few hours' ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy comfort and evilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be ocured in the place, good carpenters are at ad, and there is no place in the Union where buildings and improvements can be made

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The is, it was never thrown in the market and unless these statements were correct, no one would be invited to examine the land be Yvey will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvement and they come with a view to settle they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on re-

There are two daily trains to Philadelphia and to all set lers who improve, THE RAILBOAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS. THE TOWN OF HAMMONTON.

In connection with the sgricultural settlement a new and thriving town has naturally arisen, which presents inducements for any kind of busi-ness, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactories of agricultuaal implements or Foundries for easting small articles.
The improvement has been so rapid as to insure a constant and permanent increase of business.

HOLLOWAY'S OINTMENT. CIRCULAR TO THE SICK. THE first hospital surgeons and medical pub-licists of Europe, admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their onatal and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlies the external evidences of disease, and paralize the fiery elements which feed and external extended which feed and extended the manady.

These are among the most terrible and agonizing diseases of the muscles, the fleshy three and the skin; set in their worst forms and when

nizing diseases of the muscles, the nessly more and the skin; yet in their worst forms, and when seemingly, incurable, they invariably disappear under a persevering application of this soothing, healing, autidate to pain and-inflammation.
