

Railway or Endless Chain Horse Power for One or Two Horses. Changable Thresher and Separa-tor and Thresher and Cleaner

WELLES, BLOOD & CO.

Athens, Pa. The Improved Emery Horse Pow-ers are equal if not superior to any End-less Chain Powers in the world, and warranted greatly superior to the Wheeler Rack and Pin-ion Powers.

The Tiega Point Horse Powers are unequaled for convenience by any other—being adapted to a great variety of uses where Power is needed as five different degrees of motion are obtained without extra gearing, and also any desirable length and velocity of crank motion for cross-cut Sawing, Pumping and Churning! They run easily, are strong, durable, well finished, and made of good materials.

Tioga Point Threshers and Separators. They are made of various sizes, and are superior to any other manufacture—of which fact judges of such machines will be satisfied upon

Fanning Mills Fitted to run by Horse Power, Thresher an Separator, by Belting from the Power.

Thresher and Cleaner. The Tiega Point Thresher and Cleaner, and Emery's Combined Thresher and Cleaner, these run easily and thresh and clean fast, without wasting the grain which is cleaned fit for market, and are warranted to give entire satisfaction.

For Sale—Tiega Point Farming Mills, Portable, Circular and Cros-Cut Saw Mills, Clorer Hullers, amd Farm Grist Mills, all of which are very superior machines.

The Tiega Point Thresher and Cleaner, and them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good expenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaner.

(CARD.) SINCE I Originated the Gift Book Enterprise, I have repeatedly called the attention of the public to my large stock of liberal offers, which they have always warmly responded to. I can now, with more satisfaction than ever, call attention to my largely increased inducements to pur-chasers. Being very heavily engaged in publishing, I exchange my publications for those of other houses, and am enabled to procure all my books at the original cost, and thus can and do supply the majority of the other houses engaged in the Gift Book trade, with their books, cheaper than they can procure them from other publishers. I can also, by my heavy purchases of Watches & Jewelry, for cash, furnish them with their Gifts at lower rates than they can buy them from the

mappfacturers. Having such an advantage in buying, I can in-sure my customers a great deal better Gifts with their books than any other house, and can give my agents a larger commission. A valuable Gift is delivered with each Book at the time of sale.— Gifts worth \$100, at the lowest wholesale rates, will be impartially distributed with every \$1000 worth of Books sold.

CONSUMPTION CURED!

Winchester's HYPOPHOSPHITES OF LIME AND OF SODA.

ORIGINALLY DISCOVERED AND PRESCRIBED BY Dr. J. P. CHURCHILL. FOR THE PREVENTION AND CURE OF

Consumption. "THE SALTS of LIME and of SODA are the UNLY Preparation which, for the present, I would recommend for GENERAL USE."—J. Francis Churchill, M. D.

THE THEORY. "Phthisis is a diathesia or general disease depending upon the want or undue waste of the Oxydizable Phosphorus normally existing in the nimal economy."

THE TREATMENT.

"Hence it follows that the Remedy consists in supplying the deficient element by the admin-istration of a preparation of phosphorus which is at once Assimilable and Oxydizable. The Hypophosphites of Lime and Soda, posseas both qualities in the highest degree, being perfectly soluble, and nearly as oxydizable as phosphorus. The Hypophosphites are the Specific Remedy of the Diathesis, or general condition of the system, which have a consequence the deposition. tem, which has, as a consequence, the deposition of tubercular matter. When once this condition is changed, the deposition of fresh tubercular matter will cease. RESULTS OF THE TREATMENT.

What I am anxious for is, that the Hypophos-phites should be brought as speedily as possible into universal use as I know that they will prove not only as sure a Remedy in Consumption as Quining is in Intermittent sever, but also as effectual a Preservative as Vaccination in Small-pox. This assertion no longer rests upon the 34 cases with which my discovery was ushered into the world in July, 1857. I can now appeal to the results in upwards of one hundred and fifly de-tailed observations of the disease, collected du-ring the past year at my Public Dispensary, Rue Larrey, Paris. To these cases might be added almost an equal number from my private practice and in no single instance have I found the Remedy fail to produce everything that could reasonably be expected from it. In most instances the ably be expected from it. In most instances the benefit derived from it has far exceeded what could, at first, have been hoped for, when taking into account the degree and extent of the injury contained by the Lungs previous to the use of the Remedy. Similar results have, since the publication of my discovery, been announced by the Lungs previous to the use of the Remedy. Professors Paragot of Brussels, Masstre de San Juan of Granada, Spain; Drs. Jacinto Le River-end and Galvez of Havana, and Reinvillira, Paris. ond and charter of invana, and then will a fraction of 22 cases in the third or last stage, treated at my. Dispensary during the past year, 8 have completely recovered, 8 died, (owing in every instance to complications,) and 6 are still under trentment. Such a result is altogether UNPAR-ALLELED in the Annals of Medicine,—From Dr. Churchill's Lotters.

READ THE TESTIMONY We now see the rationale of the employment of Hypophosphites of Lime and Soda, recommended by Dr. Churchill in the treatment of Con sumption—they not only act as absorbents, but repair and retard the waste of tissue."—Dr. H. P.

Dewees, New York. "Your preparation has not failed to benefit in a single instance in which I have used it,"—W. F. Clark, M. D. Lowell, Ohio.

"They improve the nervous strength and in-visionate the nutritive functions."—W. E. Rust Guttenberg, Bosenbanm, & Co's. "Their anodyne effect is sometimes remarkable, they tend to produce most referentiag and renovating rest."—L. V. Newton, M. D., N. Y. "They INCREASE the PRINCIPLE which

constitutes NERVOUS FORCE, and are the most POWERFUL BLOOD-GENERATING AGENTS KNOWN."—Dr. Churchill. "I can assure the profession and the public that this PREPARATION of the HYPOPHOS."
