Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is fice from its attacks, nor is there one which it may not desired. The verofulous taint is variously from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, fow living, disordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, above all, by the venereal infection. What ever be its origin, it is hereditary in the constitution, descending of from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will what the iniquities of the fathers upon their children."

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous contamination; and the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their unture, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the origins, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invalided by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renewate the blood by an alternity food and exercise. Such a medicine we supply in

Philadelphia, April 12th, 1856.
