Scrofula, or King's Evil.

scroithla, or king's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and faurth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubereles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that serofulous constitutions not only suffer from serofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, wast numbers paids by disorder-which, although not sevortious in their nature, are still rendered fatal by this taint in the system. Most of the consumption which d. system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, destructive diseases of the liver, kidners, brain, and, indeed, of all the organs, areas from or are aggravated by the same cause.

One quarter of all our people are rerofalous; their persons are invaded by this lurking infection, and their health is undesmined by it. To cleanse it from the system we must renovane the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
