Scrofula, or King's Evil,

SCIOIULIA, OF KING'S EVIL, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous trint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impute air, fifth and fifthy habits, the depressing ivices, and, above all, by the venercal infection. What-ever be its origin, it is hereditory in the con-stitution, decending "from parents to thildren unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the inequiries of the fathers upon their children."

will visit the inequities of the fifthers upon their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glauds, swellings; and on the surface, eruptions or sorts. This foul cor-ruption, which genders in the blood, depresses the energies of lufe, so that scrofulous constitu-tions not only suffer from 'scrofulous' cour-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disord ru-which, although not scrofulous in their insture, are still rendered fatal by this thint in the screten. Most of the consumption which desystem. Most of the consumption which desystem. Most of the consumption which de-cimates the human family has its origin directly in this serofulous contanination; and many destructive discases of the liver, kidaeys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our prople are scrafulous; their persons are invaded by this larking ins-fretion, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food sud exercise. Such a medicine we supply in
