CIRCULAR TO THE SICK. FACULTY:

Licits of Europe, admit the untartilled D. W. LOWELL, Principal, Professor of the anti-inflammatory and healing properties of this Science of Accounts. Practical Accounts. Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the atmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlies the external evi-dences of disease, and neutralize the fiery ele-

ments which feed and exa-perate the singleds.

Rhoumatism, Scrotula, Erysipelas.

These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when scemingly incurable, they invariably disappear under a persevering application of this soothing,

incaling, autidate to pain and inflammation.

Ball Rhoum, Fover Sores, Stiff Joints.
In all cases of Sait Rhoum, where ujudical waters, lotions, and every receipt of the pharmacopera have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effeet upon contracted sinews is truly wonderful.

Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Olamint. The surrounding redness vanishes, and granules of of healthy flesh begin to take the place of the discharged matter. This process goes on more of less rapidly, until the orifice is filled up with sound material, and the ulcer radically cured.

A Word to Mothers.

The young are the most frequent suffers from external injuries, and therefore every mother should have this healing preparation constantly at hand: It is an absolute specific for sore

EVANS & WATSON, Have had the surest demonstration in the following certificate that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them as rendering an andoubled accurity against the terrific element :
Philadelphia, April 12th, 1856:

Messra, Evans & Warzon, -Gentlemen: It you, that owing to the very protective qualities of two of the Salamander Sales which we purchased of you some months since, we saved n large portion of our jewelry, and all our books, papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they subsequently fell into a heap of burning ruins, where the vast concentration of neat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take the preservation of the great security afforded by your Safes. We shall take much pleasure in recommend-ing them to men of business as a sure reliance

A N old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser A population of some Fifteen Hundred, from various parts of the middle States and New Englind have settled there the past year, improved their places, and raised crops. The price of land is at the low sum of from \$15. to \$20 per acre, the soil is of the best quality for the production of Whent, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts-the destructive nemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examing the place itself, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is, only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vinyards and peach orchards, planted, and a large number of other improv

The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land be-fore purchasing. This all are expected to do. They will see land under cutivation, such is the extent of the settlement that they will no doubt, meet per-ons from their own neighborhood; they will witness the improvement and can judge the character of the population. A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who

on Sr. Anthony's Fine, and indeed the whole class of complaints arising from Impunity or THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humon which fester in the vitiated blood whenever you find its impurities bursting throtigly the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the yous; cleanse it whonever it is foul, and your feelings will tell you when. Even where no particular disorder is felt; people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of laxifact of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-
