Philadelphia, April 12th, 1856.

Messis, Evans & Warson,—Gentlemen: It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jewelry, and all our books, papers, &c., exposed to the calamitons fire in Ranstead Place, on the morning of the 11th

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they subsequently fell into a heap of burning rains, where the vast concentration heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes. We shall take much pleasure in recommend-ing them to men of business as a sure reliance

Reing in the circulation, it products the whole body, and may burst out in disease on any part of it. No organ is free roun list a tacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and flathy habits, the depressing vices, and, dove all, by the venereal infection. Whatever be its origin, it is hereditary in the conever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or alcorous matter, which, in the lungs, liver, and internal organs, is termed tibercles; in the gland, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the uttacks of other diseases; consequently, vast numbers paish by disorders which, although not scrofolous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimales the human family has its origin directly in this scrotulous contamination; and many destructive diseases of the liver, Ridneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. are aggravated by the same cause.

Ole quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system are must renovate the blood by an alterative medicine, and in-

vigorate it by healthy food and exercise. Such a needleine we supply in AYERS Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only serofula, but also those other affections which arise from it, such as Enterrise, and Skin Diseases, Sr. Anthon's Pire, Rose, or Entering and Balta, Tumous, Tertrer and Salta Rurem, Schill Hiad, Ringwork, Ringwork, Ringwork, Structure, and Mercunial Disthrematism, Syphilitic and Mencunial Dis-EASES, DROPSY, DESPERSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular telief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in
