The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonderful influence.

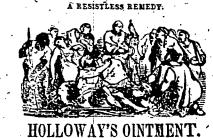

The experience of thousands daily proves that no preparation of Iron can for a mement be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexious indicate its necessity in almost every conceivable case. In all cases of famale debility (fluor albus; chlorosis, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appeting complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorative it has no superior and no substitute.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously anual it is marginal disease low living disease. not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and fifthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injusting of the fethers were

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders, which, although not scrofulous in their nature; are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are serofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate at by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also these other affec-tions which arise from it, such as Emprive-and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERTSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROFSY, DYSPERSIA, DEBLITY, and, indeed, all Complaints arising from Viriated on Impune Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them

their action can rarely withstand or erade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is, astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of serty body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Castiveness, Heartburn, Headache arising from diordered Stomach, Nausea, Indicestion, Pain in and Morbid Inaction of the Boucels, Flatulency, Loss of Apportite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

disease.
So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and wen desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonery organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the ufflicted they can never longet, and produced cures too numerous and too remarkable to be forgotten.

For sale in Montrose by sep29 '59 ly ABEL TURRELL, Agent. Ayer's Sarsaparilla

A compound remedy, in which we have la-A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Schopula and Schopulous Complaints, Enverions and Envertive Diseases, Ulcers, Pinnles, Blorches, Tumons, Salt Rhewn,

PIMPLES, BLOTCHES, TUMORS, SALT RHEWM, SCALB HEAD, SYPHILIS AND SYPHILITIO AP-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RAIGIA OR TIC DOULDWEUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ENYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humons which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to dothis through the natural channels of the body by an alterative medicine. Cleanse out the by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed

for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsquarilla for one dellar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsquarilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsquarilla which flood the market, until the name itself, is justly denied and has become Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to circ. In order to secue their complete ed to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do. IMPURE BLOOD!

IMPURE BLOOD!

The blood is the life! and when any foreign or unbealthy matter gets mixed with it. It is at once distributed to every organ of the body. Every nerve feets the polses, and all the wital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrive a sufficiency of bile. The action of the beart is weakened, and so the circulation is feeble. The large become clogged with the polsenods matter; hesce, a cough—and all from a slight impurity at the fountale-head of life—the Hood! As if you had thrown some earth, for instance, in a pure spring, from which rah a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and disclored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and walese the obstruction is removed, the lamp of life soon dies out. These pills not only purify the blood, but represents all the ascretions of the body; they are, therefore, unrivalled as a

CURE FOR BILIOUS DISEASES. Liver Complaint, Sick Headache, &c. This Anti-Bibbes Mellicine expels from the blood the bidden seeds of descais, and renders all the finide and secretion; pure and fluent, clearing and resuscitating the vital organs.
