The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of famale debility (fluor albus, chlorosis, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachie and general restorative it has no superior and no substitute.

HOELOWAY'S OINTMENT.

CIRCULAR TO THE SICK. THE first hospital surgeons and medical publicists of Europe, admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in his country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlies the external evi-dences of disease, and neutralize the fiery efe-

ments which feed and exasperate the unlady.

Rhenmatism, Scrofula, Erysipelas. These are among the most terrible and ago-nizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disoppear under a persevering application of this soothing, healing, suitdote to pain and inflammation. Salt Rheum, Fever Seres, Stiff Joints. In all cases of Salt Rheum, where medical wa-

ters, lotions, and every receipt of the pharmaco poes have proved useless, the Ointment will accomplished thorough cure. Fever Sores heal quickly under its influence, and its relaxing ofect opon contracted sinews is truly wonderful.

Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Olument. The surng reduces vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material, and the pleer radically cured.

A Word to Mothers.

The young are the most frequent suffers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore preasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces

Being in the circulation, it pervades the whole body, and may burst out in discuss on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously casted by mercurial discuss, low living, discussed by mercurial discuss, low living, discussed. caused by mercurial disease, low living, distordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and nourth generation;"-indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubelefes; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions. tions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consestand the attacks of other diseases; consequently, wast numbers perish by disorders which inthough not scrofulous in their nature, are still rend red fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are inyaded by this, lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Entertive and Skin Diseases, St. Anthony's Fire, Rose, or Enseithers, Pratices, Partices, Blades and Bouls, Tryons Tryons. The popular belief in "impurity of the blood" is founded in truth, for gerofula is a degeneration of the blood. The particular purpose and virtue of this Sarrapa-rilla is to purify and regenerate this vital fluid, without which cound health is impossible in

contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL_THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them

their action can rarely withstand or crade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its leadthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish graffs my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heurthon, Headache arising from disordered Stomach, Nausea, Indigestion, Pann in and Morbid Inactions of the Bovols, Flatulency, Loss of Appatite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section, of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other incideine of its kind is too apparent to escape observation, and where its virtues are known, the public ho longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While junny inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the affected they can never forget, and produced qures too numerous and too remarkable to be forgotten.
