Description.

It consists of a metal cylinder, with ribs on the inside, and an interior cylinder of wood, with ribe. There is a space from six to eight inches between the two cylinders. - One crank Inches between the two cylinders. HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-S can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than yolumes of bare assertion or blaconing puffery. The consumption of Bostetter's Stomach Bitters for the-last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sauction of the most prominent physicians in those sections of the country physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their 'patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

4 This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as cuduring as time-itself.

destined to be as enduring as time-itself.

Hostetter's Stomach Bitters have proved Hostetter's Stomen Inters have proven a flodsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state condidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter alloyed pleasure. It removes an morbid matter from the stomach, purifies the blood, and imparts renewed titality to the nervous system, giving it that tone and energy indispensable, for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort in it a stimulant peculiarly adapted to comion declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have these vidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach detrangements and general debility: acting under the advice of physicians, they have abandoned all deleterious drugs and, fairly tested the merits of this article. A few words to the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if the be young, is apt to forget her own health in her extreme anxiety for her infant. Should the world of the state of t for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupo-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-tors that receive the endorsement of physi-cians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength. All those persons, to whom we have particu-

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations or counterbut ask for Hostetten's Celebrated STOMAGE BITTERS, and see that each bottle has the words "Dr. J. Howtetter", Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and erve that our autograph signature is on the

EVANS & WATSON, Have had the surest demonstration in the ollowing certificate that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them as rendering an undoubted security agains the terrific element : Philadelphia, April 12th, 1856.

AGAINST THE WORLD.

Messrs, Evans & Warson.—Gentlemen: It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jewelry, and all our books papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th nst. When we reflect that these Safes were located

n the fourth story of the building we occupied and that they subsequently fell into a heap oburning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the grea security afforded by your Safes. We shall take much pleasure in recommending them to men of business as a sure reliance against fire.

IMPURE BLOOD:

The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the joison-and all the wild organ quickly complain. The summels will not digest the food perfectly. The liver causes to secrete a sufficiency of bile. The action of the heart is reakened, and so the circulation is feeble. As if you had thrown some earth, for instance, in a pure spring, from which use a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discooped. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lawp of life soon dies out. These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unjuvated as a.
