HOSTETTER'S STOMACH BITTERS. The propries is and a unfacturers of HOS-TETTERS CELEFOLICED STOMACH BIT-Tills can appeal with perfect confidence to physicians and carrain agenerally of the United States, because the artille has attained a reputhis point will be the responsibility point will be the responsibility than volumes of here are control of the rosing puffery. The bonson part of Hostettar's Stanach Bitters for the last year are acted to over a half-naillien bettle and trees its manufest stendy increase in times 1 st. in is existent that thring the coming year the consumption will reach mean one make it is the. The immense amount could never he below will put for the rare medicinal for the ies commined in the preparadecition of the most prominent tion, and the physicians in those sections of the country where the attale is be t known, who not only recommend the Latters to their patients, but are ready at all times to give testimenials to its efficiency in all coses of stomachia derangements and the discusse resulting therefrom.

This benota temberary popularity, obtained by extraordinary chorts in the way of trumpeting the quadries of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be see other ig as time itself.

Hosteries's Somach Bitters have proved a Godson't to regions where fever and base and various other bilious complaints, have counted their victims by hundreds. To be recommend the Latters to their patients, but and various other bittons companies nave counted their victims by bundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a gonree of unalloyed pleasure. It removes all morbid matter any or pleasure. It remy ts an morne matter from the atomich, purifies the blood, and laparis renewed vitality to the nervols system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and their digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the interious of nature. Elderly persons' may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant psculiarly adapted to comfort in it a stimulant pscaliarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuveniting generally. We have the ovidence of thousands of aged men and women who havelexperienced the benefit of using this preparation while suffering from stomach degrangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when gentler sex. There are certain periods when

genter sex. There are certain perious when their cares are so harassing that many of them the under the trial. The relation of mother and children so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her it fant. Should the period of maternity acrive during the summer season, the wear of body and mind is generally aggravated. Here, then is a necessity for a stimulant to recupe-rise the energies of the system, and enable the moder to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodi'y firengin.

All those persons to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach,

superannanted invinids, persons of sedentary occupation, and nursing nothers, will consult their own physical weltare by giving to Hostetter's Celebrated Stemach litters a viral.

CAUTION—We caution the public against using any of the many imitations or counterfeits, but ask for Hosterten's Celebraten STONACH BITTER'S, and see that each bottle has the words "Dr. J. Hostetter's stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering, the cork, and observe that our autograph signature is on the label. label.

EVANS & WATSON, Have had the surest demonstration in the ollowing certificate that their manufacture of alamander Safes has at length fully warranted the representations which have been made of them as rendering an undoubted scenity against

the terrific element : Philadelphia, April 12th, 1856. Mesers, Evans & Watson.—Gontlemen: It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jewelry, and all our books, papers, &c., exposed to the calamitous fife in Ranstead Place, on the morning of the 11th

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they subsequently fell into a heap of burning ruins, where the wast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in secommending them to men of business as a sure reliance
